

Align Course Learning Outcomes with Assignments completed in Third-Party or Publisher Software* in Canvas

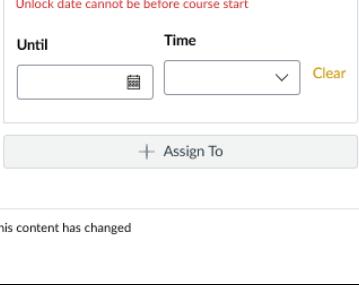

*McGraw-Hill, Pearson, ALEKS, etc.

Different third-party software applications interact differently with Canvas, but this guide should work for most of them. If you go through the steps in this guide and are still having trouble linking your Outcomes, please contact your DCAF or the Office of Assessment and Evaluation for more specific advice.

Fundamentally, assignments that are completed with third-party software can be assessed like any other assignments, but there are some settings in Canvas that can make the Outcome linking a bit tricky to set up. This guide will walk you through those settings as well as an alternate route for using SpeedGrader to assess student performance for these assignments.

1		Locate the assignment you want to align to an outcome
2		DON'T click on the assignment title – instead, click on the three dots to the right of the assignment title
3		Click on Edit

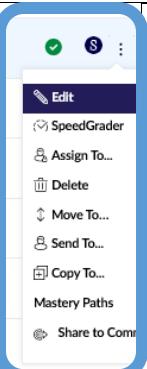

4		Click on More Options
5		<p>Scroll down to the Submission Type area and check the box for “Load This Tool In A New Tab” (this is a temporary change to your assignment settings - we will undo this change after Outcomes have been aligned)</p>

6	 <p>Unlock date cannot be before course start</p> <p>Until <input type="text"/> Time <input type="text"/> <input type="button" value="Clear"/></p> <p><input type="button" value="Assign To"/> +</p> <p><input type="checkbox"/> Notify users that this content has changed</p> <p><input type="button" value="Save"/> <input type="button" value="Cancel"/></p>	Click Save
