

## Assessment Planning

### Locate Course Learning Outcomes in Canvas

Before beginning to link Outcomes with assignments, it is a good idea to check the Outcomes that have been pushed to your Canvas course shell to verify that they are correct.

1		Log into Canvas as normal.
2		Locate and click on your course shell
3	 <p><b>COURSE GUIDE:</b> <a href="#">INT 2</a></p> <p><b>COURSE BLUEPRINT:</b> <a href="#">INT</a></p> <p><b>Course Description/Outcomes:</b></p>	Outcomes will be in the menu on the right side (left for Mac users).

4		Click Outcomes
5		Click on the name of your course in the box on the right.
6		Your Course Learning Outcomes (CLOs) should appear in the box on the left. Verify that these match the Outcomes in your syllabus and Course Assessment Worksheet.

#### Troubleshooting: no outcomes or incorrect outcomes

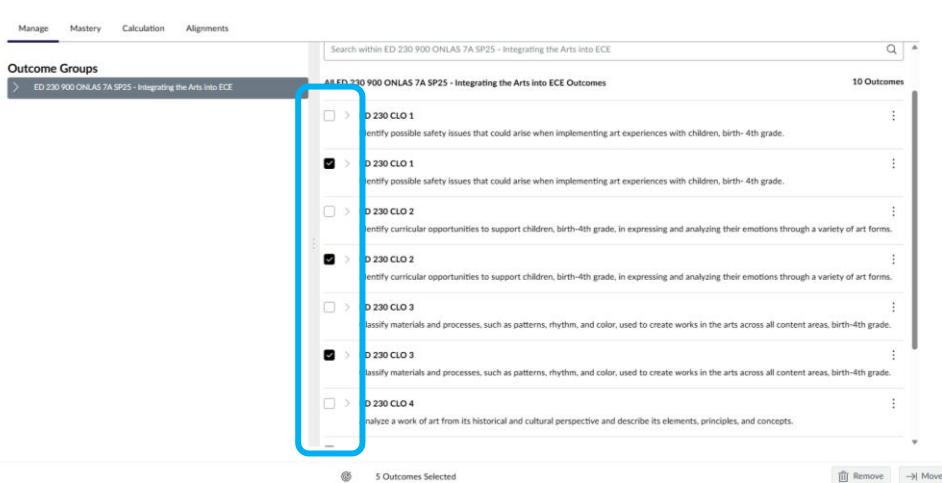

If no outcomes appear after you have clicked the name of your course, or if the outcomes are incorrect or outdated, please contact your DCAF or the [Office of Assessment and Evaluation](#).

## Troubleshooting: too many outcomes

Occasionally, Outcomes will be pushed into your course several times, leaving you with extra copies of each outcome. If you find extraneous duplicates of Course Learning Outcomes:

Success!

Canvas will not allow Outcomes that have been aligned to any assessments to be removed, so if you have trouble removing one copy of an Outcome, you may have aligned it to something already. First try deleting the other extra copy of the Outcome, and if that also doesn't work, please contact your DCAF or the [Office of Assessment and Evaluation](#).
