STUDENT OUTCOMES COMMITTEE OF THE BOARD OF TRUSTEES

MINUTES

Thursday, November 5, 2020 1:15 p.m. Zoom

Presiding: Ms. Fulmore-Townsend

Committee

Members: Mr. Clancy, Ms. Ireland, Ms. McPherson, Ms. Posoff

Board

Participants: Mr. Dubow, Mr. Epps, Ms. Hernández Vélez, Mr. White

College

Members: Ms. de Fries, Dr. Gay, Dr. Generals, Dr. Hirsch, Dr. Roberts

Cabinet

Members: Ms. Rooney, Ms. Witherspoon, Dr. Zanjani, Ms. Zellers

Guests: Mr. Acosta-Morales, Ms. Barber, Dr. DiRosa, Dr. Seymour, Dr. Sweet

(1) <u>Executive Session</u>

There were no agenda items for the Executive Session.

(2) Public Session

(a) Approval of the Minutes of October 8, 2020

The minutes were approved unanimously.

(b) Academic Program Review: Liberal Arts: Honors Option (A.A. Degree)

Dr. Gay highlighted points from the executive summary: the fall in enrollment, the increase in part-time students, in Black students and in female students, and the retention and graduation rates. Significant improvement is needed for assessment of student learning. While the program has been assessed at the course level, this has not been done at the program level, and the assessment methods have not been of high quality in terms of student learning outcomes. The program does have innovative partnerships, including with the Philadelphia Museum of Art. Recommendations in the academic program review relate to improving enrollment, increasing diversity, and improving assessments. Dr. Sweet, the division dean, concurred with the overall findings. The program has had innovative initiatives and projects to strengthen

outcomes in graduation and transfer rates, but has missed opportunities to assess and evaluate what the program has done and to improve on that. One example of this is the change to allow a new part-time block and its possible effect on enrollment and graduation. The program should also address equity and the notable differences in enrollment for Black and for female students.

In response to various questions from committee members, Mr. Acosta-Morales, the department chair, explained that the drop in enrollment was an intentional move on the part of program to provide more opportunities for part-time students by decreasing the number of full-time sections. In regards to diversity of students, Mr. Acosta-Morales explained that the program is addressing the lack of diversity in Honors faculty and described its recent efforts to counter this. The program has also taken steps to more directly support students of color, including collaborating with the Center for Male Engagement. Having an option for part-time students opens up the possibility for dual enrollment students to take Honors courses. Dr. Seymour, the program's curriculum coordinator, added that the program welcomes using data for improvements. Regarding strengthening assessments, Mr. Acosta-Morales said that the program has made progress in this area and continues to do so, including mapping learning outcomes from the course level to the program level and making the learning outcomes more specific.

Action: The Student Outcomes Committee unanimously recommends that no action take place until the following documented evidence in three categories is submitted by the designated due dates for the Committee to determine the future of the program:

- Assessment
 - A fully developed systemic assessment plan Due January 25, 2021
 - Perform full cycle of assessment based on assessment plan and report detailing cycle's results and next steps – Due June 7, 2021
- Program Development
 - Perform environmental scan, assessment of need and market analysis – Due February 26, 2021
- Develop program revision design Due April 2, 2021
- Develop revised program Due September 30, 2021
- Enrollment Growth Plan
 - Develop and launch enrollment growth plan with emphasis on recruitment, enrollment, retention, and completion based on analysis due in February and revision design – Due June 30, 2021

(c) Academic Program Review: Behavioral Health and Human Services (A.A.S. Degree)

Dr. Gay stated that the Behavioral Health and Human Services (BHHS) program is a long-standing program at the College and while large, it has seen decreases in enrollment over time. It has a higher percentage of part-time students than the College

overall, but also a higher proportion of students with 24+ credits. It enrolls significantly more Black students than the College (70% vs. 46%) and more female students, which might reflect the field to some extent. The program has been able to retain and graduate students at rates comparable to the College; about 20% of A.A.S. degrees awarded in 2019 came from this program. Many students also transfer, even though this is a career program; the program has agreements with multiple four-year institutions. The advisory committee usually meets annually (though not this year with the pandemic). The program does need to improve its assessments; the focus has been too much on course level as opposed to the program level. It also needs to focus on documenting how they close the loop, per Middle States standards. Recommendations from the review include focusing on enrollment and the unique needs of its students, and on improving assessments. Dr. Sweet, the division dean, agrees with the points made by the audit, including the need for greater evaluation of student learning outcomes and increasing new students.

In response to questions from the committee, Ms. Barber (the program's curriculum coordinator) said there is growth in and demand for the field in the City and corresponding increases in salaries, especially when students earn their bachelor's degree. Dr. Gay noted that it is difficult to get data from students after they graduate, but the College is examining possible vendors and means to do so. Dr. DiRosa, the department chair, provided as an example addiction counselors, who can earn a certificate at the College, immediately enter the field, and move their way up with a four-year degree while in the workforce. Dr. Sweet explained there is a need for addiction specialists in the City and program staff have been examining how to prepare students for that field; the program is catching up on meeting demand. Ms. Barber described how the program's curriculum coordinator traditionally works with the Workforce unit of the College to foster outreach to the community, to offer BHHS courses at community sites, and to bring students into the BHHS program. The advisory committee and individual faculty active in the City also contribute to outreach efforts. Dr. DiRosa and Ms. Barber agreed that outreach needs to be expanded and it needs to be more intentional. The program has developed new courses and already has practicum courses which contribute to this. The program is also working with the Marketing department to better brand and promote itself.

Action: The Student Outcomes Committee unanimously recommends that no action take place until the following documented evidence in three categories is submitted by the designated due dates for the Committee to determine the future of the program:

- Assessment
 - A fully developed systemic assessment plan Due January 25, 2021
 - Perform full cycle of assessment based on assessment plan and report detailing cycle's results and next steps – Due June 7, 2021
- Program Development
 - Perform environmental scan, assessment of need and market analysis Due February 26, 2021

- Develop program revision design Due April 2, 2021
- Develop revised program Due September 30, 2021
- Enrollment Growth Plan
 - Develop and launch enrollment growth plan with emphasis on recruitment, enrollment, retention, and completion based on analysis due in February and revision design – Due June 30, 2021

Due to time constraint, remaining agenda items were deferred to future meetings.

(d) New Business

There was no new business.

Next Meeting

The next meeting of the Student Outcomes Committee of the Board is scheduled for January 7, 2020 at 1:15 p.m. via Zoom.

STUDENT OUTCOMES COMMITTEE OF THE BOARD OF TRUSTEES

MINUTES

Thursday, October 8, 2020 1:00 p.m. Zoom

Presiding: Ms. Fulmore-Townsend

Committee

Members: Mr. Clancy, Ms. McPherson, Ms. Posoff

College

Members: Ms. de Fries, Dr. Gay, Dr. Generals, Dr. Hirsch, Dr. Roberts

Guests: Mr. Coleman, Ms. Frizell, Ms. Gordon

(1) Executive Session

There were no agenda items for the Executive Session.

(2) <u>Public Session</u>

(a) Approval of the Minutes of September 3, 2020

The minutes were approved unanimously.

(b) Workforce Development Discussion

Committee members had provided Ms. de Fries and Dr. Hirsch questions as items for discussion about workforce development and employer connections. Ms. de Fries noted that the first topic to discuss is employer engagement. Previously, the Workforce and Economic Innovation (WEI) division had developed a list of employers they wanted to engage; this list was provided to the Board of Trustees. Ms. de Fries enumerated the variety of ways the College works with employers in the region, including providing work-based learning experiences for students and to support their own employees' professional development. Employer Advisory Committees are another method.

Dr. Hirsch explained that all career programs have advisory committees with representatives from companies and employers. There are over 20 advisory committees with over 150 industry representatives across them. They provide

feedback on curriculum development efforts and help the College build pathways to employment for students. While the advisory committees meet once or twice a year, conversations take place throughout the year between programs and committee members regarding opportunities for students. Ms. de Fries added that WEI refers highly engaged employers to the deans to be on these advisory committees; these companies are included on the tiered employer partner list. For the partner list, employers are divided into various tiers depending on their level of engagement with programs and the College. For companies on tiers indicating lower levels of engagement, WEI can then prioritize developing connections with these companies.

WEI also works with the academic deans to prioritize which programs would benefit from increased employer engagement. Dr. Hirsch provided as an example of high employer engagement the Diagnostic Medical Imaging program. This program has robust conversations at advisory committee meetings attended by representatives from multiple hospitals and health organizations. Ms. Fulmore-Townsend asked about capacity in order to move more employers into top tiers on the partner list. Ms. de Fries explained that the Employer Engagement Manager and the Director of Career Connections are the main staff who work with employers, along with the Pathway Coordinators.

Ms. de Fries described Corporate College, which concentrates on engaging larger scale employers (500+ employees) or consortia of employers. With Corporate College, WEI can provide training at the employer's location or employees are able to take advantage of the employer's tuition reimbursement policy. Examples of such companies include Einstein Health Care Network, Penn Medicine, and UPS. For consortia of employers, the Early Childhood Education and the Behavioral Health/Human Services (BHHS) programs are popular. Work-based learning experiences are another connection with employers; these take place for both credit (Nursing and Allied Health programs, BHHS, and American Sign Language) and non-credit (Clinical Nursing Assistant, Dental Assisting) programs. Apprenticeships and Pre-Apprenticeships are likewise available for both credit and non-credit programs; one example is the 1199C program for Early Childhood Education. The College also collaborates with Philadelphia Works on such opportunities.

Further details are available in the attached pdf document.

(c) Academic Program Review (APR) Process

Ms. Gordon (Office of Assessment and Evaluation) provided a summary of the process of APRs before they are sent to the Student Outcomes Committee. This includes data and documentation review, collaboration with faculty, and at least two rounds of formal feedback and revisions. Reviews are sent to the Academic and Student Success Council, which also provides feedback that may require revisions before the report is sent to the committee. Programs are to undergo this process every five years. The process often starts at least three months before the projected deadline, although adjustments have been made for COVID and as needed. Attached

to the overview document is a description of the role of the Student Outcomes Committee in this process. Dr. Gay explained that this has been in place for several years, including the purpose of the APRs. The Student Outcomes Committee can approve the program for five years; can approve for fewer than five years; can request data to review before deciding on next steps; or can discontinue a program. The committee was also given the schedule for the APRs for informational purposes.

(d) New Business

There was no new business.

Next Meeting

The next meeting of the Student Outcomes Committee of the Board is scheduled for November 5, 2020 at 1:15 p.m. via Zoom.

Academic Program Review: Liberal Arts: Honors Option A.A.

Authors:

Dr. Brian Seymour, Teresa Frizell, Osvil Acosta-Morales, Elizabeth Gordon

Fall 2020

I. Executive Summary

A. Key Findings for the period Fall 2015-Spring 2020

Enrollment and Demographics

- 1. Honors enrollment decreased from 133 in Fall 2015 to 63 in Fall 2019. This is a 53% decrease in enrollment.
- 2. The Program composition shifted from 28% part-time students to 46% part-time.
- 3. In Spring 2020, 79% of Honors students had more than 24 credits. Across the College, 49% of students had more than 24 credits.
- 4. At 31.5%, Honors enrollment averaged 14 percentage points fewer students who identified as Black than the College average of 45.7%.
- 5. Honors enrollment averaged 9 percentage points lower enrollment of students who identified as Female (56.4%) than the College average (63.5%).

Retention

- 6. At 23%, the average proportion of Program students returning from one Fall to the next averaged 10 points lower than the College's average. The percent of students who did not return to the Program in the Fall was similar to the College's average, at 48%.
- 7. Students in the Program are matched with an Honors faculty mentor who serves as their academic advisor and central point of support, and who works in close collaboration on a weekly basis with the student's other Honors instructors.
- 8. Annually, Honors holds an Alumni Panel to facilitate mentoring between current students and alumni, and a social event to keep contact with former students and share in their success.

Success and Graduation

- 9. Since 2015, 76 students have graduated with an A.A. in Liberal Studies: Honors Option. Future degrees will be an A.A. in Liberal Studies: Honors.
- 10. At 14%, the Program's Fall to Fall graduation rate averaged 5% higher than the College's.
- 11. The number of degrees awarded annually halved in the period studied, from 22 in 2015 to 10 in 2019.

Transfer

- 12. Seventy-nine percent of Honors graduates transferred in the period studied. The College's overall graduate transfer rate is 65.6%.
- 13. Individual alumni as well as representatives from Swarthmore, Bryn Mawr, and Drexel made classroom visits to recruit students in 2019.

Assessment

14. The Program used students' final grades to assess Program Learning Outcomes in 2014-15 and 2015-16. This is an indirect method of assessment that is widely understood to not be best practice in assessment.

- 15. The benchmarks for PLOs state that 75 or 80% of students will show competence on the assessment instrument. Assessment reports do not indicate what constitutes "competence."
- 16. According to the Program's 2015-2016 Assessment Report, the Program reviewed curriculum and teaching methods for alignment in response to student's grades in the course.
- 17. PLO 3 was last assessed in 2015, indirectly, using course grades. Because course grades are derived from many aspects of student performance other than direct demonstrations of learning or understanding, they cannot provide sufficient data about students' efficacy or lack thereof in relation to PLO 3.
- 18. Most action plans were generic and provided no real indication of reflective action based on assessment results.
- 19. The new course sequence directs full-time students to take IDS 298: Seminar in the Humanities and Social Sciences Modern during their first semester and then IDS 297: Seminar in the Humanities and Social Sciences Ancient and Medieval in their second semester in the Program. The newly implemented curriculum map indicates that students are expected to master, and be assessed on, all three PLOs, during IDS 298 (their first semester), while simultaneously indicating that the same three outcomes are reinforced and assessed during IDS 297 (students' second semester).

Internal and External Partnerships

- 20. The Program created and placed eight students in internship opportunities at the Presbyterian Historical Society and the Philadelphia Museum of Art.
- 21. The Program worked with the College to partner with Arcadia University to offer a 6-credit Study Abroad capstone course, IDS 299, for Honors students in London during the summer of 2018. The partnership included \$7500 in travel scholarships for students as well as use of facilities and site support abroad.

Cost

22. Liberal Arts, Honors costs \$4,887.45 per FTE compared to \$4,258.01 for Liberal Studies and \$4,525.35 for the College overall

B. Prior Audit

Liberal Arts: Honors was last reviewed in 2011. Below are the recommendations from that audit and the Program's response.

The last program audit on file took place in 2011. Findings and recommendations of that audit included possible consideration in the Facilities Master Plan for improvements of classroom and study spaces for Program students on the Main Campus, expanding opportunities for students at the Regional Centers, refinement and implementation of an outcomes assessment plan, establishing articulation agreements with honors programs at transfer institutions, and improved mechanisms for ensuring and tracking student success beyond the immersive 2-semester experience that is central to the Program.

The Program's primary response was to reduce the full-time sections and offer more part-time sections at Main Campus. The part-time courses broaden the appeal of the honors program by offering students who were already on an academic pathway and not willing or able to enroll in the 15-credit full-time program, which meets five days a week, to enroll in Honors courses. In addition, adding part-time options diversifies the course offerings to new disciplines, like sociology and political science, and engages new faculty. The Program also wrote and assessed Program Learning Outcomes.

C. Recommendations

The Office of Assessment and Evaluation makes the following recommendations for the Program.

Enrollment and Demographics

		eline 2018	Fall	2020	Fall	2022	Fall 2	2024
Headcount	5	3	5	50	7	'5	7	'5
Returned to Same Program	14	26.4	30	50.0%	50	66.7%	50	66.7%
Returned to Different Program	3	5.7	8	13.3%	5	6.7%	5	6.7%
Graduated	11	20.8	7	11.7%	10	13.3%	13	17.3%
Did Not Persist	25	47.2	15	25.0%	10	13.3%	7	9.3%

- 1. Create a plan to meet Fall to Fall Growth and Retention Goals for the Liberal Arts: Honors Program, as planned in the table above.
- 2. Track the effect of changes to entry requirements on enrollment and demographics to assess whether the changes resulted in an equitable increase in enrollment.
- 3. Track the effect of offering more part-time courses on enrollment and demographics to assess whether the changes resulted in an equitable increase in enrollment.

Retention

- 4. Apply feedback from alumni networks to changes that may increase retention.
- 5. Interrogate curriculum material to uncover implicit biases and opportunities to diversify topics and materials, and track the effects of curricular changes to assess whether the changes resulted in an equitable increase in retention.

Assessment

- 6. The Program should make a plan to directly assess PLO 3 at the earliest opportunity.
- 7. Create and provide rubrics or other assessment instruments that define and articulate standards such as "competent," "solid," and "excellent." Define benchmarks accordingly.
- 8. Program should make a plan to regularly review assessment data, articulate specific action plans, and documents the use of those data in continuous improvement at the Program level. Potential action plans could include reviewing assessment instruments in addition to pedagogy and curriculum. Documentation should articulate specific curricular, teaching

- method, or assessment interventions being made in response to specific data, as well as a plan to reassess the outcome at a reasonable interval.
- Research and implement assessment instruments (assignments, rubrics, scoring guides, or tests) and best practices (including disaggregating data) that capture data on diversity and equity.
- 10. Apply research from the field of Honors pedagogy on student success, retention, and equity within Honors programs to analyze assessment data for barriers to student success.
- 11. Evaluate course sequence and Curriculum Map for salience and PLO scaffolding.
- 12. Assess Program efforts to aid students in preparing for transfer by identifying the assignments or other activities which are most directly linked to students' transfer success, and creating a rubric or other assessment instrument to ensure that these activities remain effective and equitable.

Internal and External Partnerships

13. Program should build upon and expand previously successful external partnerships for advice and resourcing from outside of the College.

D. Narrative

Honors is an interdisciplinary program housed in the Department of History, Philosophy and Religious Studies in the Division of Liberal Studies. There are two tracks in Honors: full-time comprised of 15-credit blocks of five courses that run over two consecutive semesters, and a series of part-time six-credit blocks of two courses that vary from semester to semester.

The primary focus of the Liberal Arts Honors program has traditionally been the two-semester, interdisciplinary full-time program, where students earn thirty credits over two consecutive semesters, and then remain at the College to work toward the 61 credits required to earn an associate degree. Effective 2019-2020, the Program increased emphasis on its part-time options that allow students to take Honors courses in six-credit blocks. For 2019-2020 Honors ran two full-time and two part-time cohorts each semester with 25 students each. In the period studied, the program was restructured to decrease the number of full-time sections and allow more part-time students to enroll.

The past success of the Program is based around three essential tenets that separate Honors from other regional and nationwide community college honors programs:

- 1) Dedication to open access education consistent with the Community College of Philadelphia's mission. Students who maintain a B average and have tested into English 101 are eligible to attend information sessions to consider, in consultation with Honors faculty, if the program is a good fit with their educational goals. It is standard practice at other schools, e.g. Montgomery County Community College Honors Program, to evaluate students based on past academic performance in high school and advanced placement courses. Honors at CCP believes in offering everyone an equal opportunity to engage in serious academic work. We claim that Honors at CCP does not enroll Honors students it graduates them.
- 2) Reliance on Team-Teaching of all courses. Team-teaching places faculty from varying disciplines in the classroom together, thus offering students a view on to how knowledge takes shape in the various fields. This dual-mentoring provides a real-time model of how different minds at work engage in

academic discourse around a given topic. In other words, it is standard practice at most schools to add an honors designation to an existing course taught by a single faculty member in her area of expertise, but this approach offers little opportunity for the meta-critical approach used in Honors at CCP which better prepare students going forward to contribute to the process of knowledge-making.

3) Honors students study in a cohort model. Students are consistently with the same group of faculty and students, sharing an environment that more closely resembles a learning community one might find in a graduate degree program. All students enrolled in Honors courses, and former students still studying at the College, participate in high-impact activities including off-campus visits to cultural sites, public lectures, and various discussion panels. This serves students particularly well in the full-time 15-credit block of five courses. These five-courses are offered in a set pair over a two-semester sequence. The immersive academic environment provides a place for students to thrive at the College.

Fall 2020

1. Executive Summary

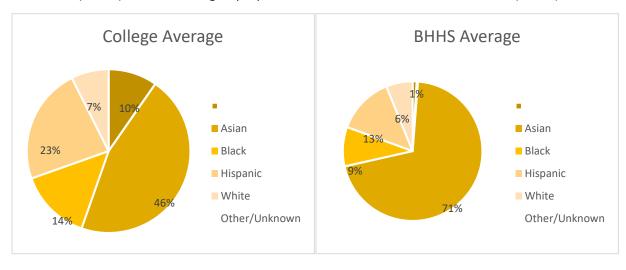

A. Key Findings

Enrollment and Demographics

- 1. Over the period studied, the Program enrolled a larger proportion of part-time students (83.6%) than did the College overall (73%).
- 2. Program headcount declined steadily from a peak of 897 students in Fall 2015 to 507 students in Fall 2019.

- 3. The Program averaged a higher proportion of students with 24 credits or more (56.0%) than the College overall (43.8%), and a lower proportion of students with fewer than 24 credits (34.0%) than the College overall (44.1%).
- 4. The Program averaged 23.6 percentage points more students who identified as Black (70.2%) than the College's proportion of students who identified as Black (46.6%).

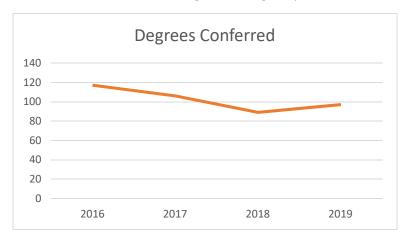

- 5. The Program averaged 13.4 percentage points more people who identified as Female (76.3%) than did the College overall (62.9%).
- 6. The Program's age composition was more evenly distributed, on average, than that of the College, with a larger proportion of students over the age of 30 (60.8%) than the College's overall proportion (25.2%).

Retention

7. Fall to Fall, the Program averaged a higher proportion of students who persisted within the same program (36.3%) and who graduated (15.8%) than did the College overall (35.6% and 9.6%, respectively).

Success/Graduation

8. The Program awarded nearly one-fifth (97) of the AAS degrees conferred at CCP (558) in 2019. It awarded a total of 409 AAS degrees during the period studied.

Transfer

9. Though transferability is not typically the focus of an A.A.S. program, over the period studied, 43.3% of Program graduates transferred to another institution. This represents a higher proportion of transfers than that of graduates of the A.A.S. programs at the College overall (40.3%).

Advisory Committee

10. The advisory committee meets annually in April and is comprised of leaders from both the behavioral health and human service work force industry, and higher education. Because of College closures due to COVID-19, no advisory committee meeting was held in 2020.

Assessment

- 11. The Program has four Program Learning Outcomes, each of which was assessed at least once in the period studied; all but one were assessed twice in the period studied.
- 12. Action plans following discussion of course-level results of Program assessment results were broad and recommended either revisions to assessment instrument items, or no further actions if benchmarks were met.

13. Assessment results are primarily analyzed only at the course or assignment level; clear documentation of Program efforts to "close the loop" by using assessment results to inform continuous improvement at the Program level is lacking.

Workforce Development

14. Between 2015 and 2020, targeted professions¹ grew over 19% in the Philadelphia metropolitan area. They paid median hourly wages of between \$15.53-\$22.72.

Cost

15. Costs incurred per Full-Time Equivalent student (FTE) of the BHHS program averaged \$3,778, lower than both the Division of Liberal Studies' average of \$4,091 per FTE, and the College average of \$4,323 per FTE.

Findings from last audit (May 2013)

1. Re-evaluate the Certificate in Disability Studies.

This program has chronically low enrollments. However, feedback from advisory committee members is that there is a need for practitioners with these skills. The curriculum faculty need to explore the following:

- A. The reasons for the lack of student interest.
- B. If the credential of a certificate is truly what employers are interested in, or if the need can be covered simply by course taking patterns.
- C. If the Disability Certificate could be more effectively combined with a different certificate, such as Human Services. Timeline:

Completed by the end of Spring 2014 Semester. Responsible Parties: Curriculum Coordinator, Dean of Liberal Studies.

Program Response: The Certificate in Disability Studies was initially developed in response to several BHHS Advisory Committee members who expressed interest in their staff receiving disabilities skills training. Interest in the certificate did not stem from BHHS students. In response to low enrollment patterns, the certificate was re-evaluated with input from the industry.

Follow up with Alliance Industry/agency providers revealed a need for general foundational knowledge and skills practice for working with individuals with disabilities that could be met as a course combined with the existing Human Services Academic certificate. By 2015/2016, BHHS 161 and 261, originally the two required courses for the certificate along with 3 electives, were consolidated into a single course, BHHS 161, which incorporates both knowledge and skills practice. Although the certificate was closed, the course is currently offered as an elective of the Humans Services Academic Certificate.

¹ As defined by positions and industries most likely to employ graduates holding an Associates degree in Behavioral Health and Human Services.

2. Revise the Social Gerontology Certificate.

The program needs to follow the recommendation of its Advisory Committee and work to revise this program to make it more visible and viable to students, who should be interested in this, given the aging population in the region.

Timeline: Completed by end of Spring 2014 Semester.

Responsible Parties: Curriculum Coordinator or designee.

Program Response: Agencies specializing in aging studies require a bachelor's degree as a minimum requirement for gainful employment, rendering a certificate credential inapplicable. In 2019, taking the comments of the BHHS Advisory Committee and low enrollment patterns into consideration, the program reviewed the Social Gerontology Certificate and determined that students would be better served by moving the material to a specialized course rather than preserving the full certificate.

BHHS 171- Introduction to Social Gerontology was revised in 2019 and is now titled Introduction to Aging Studies. The revision is an integration of the previous BHHS 171 and its second half, BHHS 277, last offered in 2010, to form an updated, more comprehensive course offering that is reflective of the current population of older adults. The certificate was closed, however the course remains in the curriculum as an elective course, as well as an elective option for the Human Services Certificate.

3. Codify structures that encourage students to formally enroll in Human Services and the Recovery and Transformation Certificates prior to graduation.

These certificates appear to have low enrollment, but have a large number of students graduating from them. In order to fully understand the needs of and outcomes for these students, they need to be able to be tracked through their career in the certificate. As mentioned earlier, the faculty have started that process. Ensuring that there are formal structures in place both within BHHS and in related areas (such as advising) will ensure these new practices continue.

Timeline: Completed by start of Fall 2013 Semester.

Responsible Parties: Curriculum Coordinator or Faculty Designee.

Program Response: In response to the previous recommendation, BHHS FT faculty established hours in Academic Advising with pre-signed forms from the Curriculum Coordinator to facilitate student enrollment into certificates. Since the college-wide implementation of My Degree Path, an advising tool that is visible to both students and faculty, students now formally enroll in the Human Service and Recovery Transformation Academic Certificates and the Recovery Leadership Proficiency Certificate by the same processes that students declare or change any major. Now that students are assigned program-specific academic advisors, we anticipate a closer relationship with the Academic Advising office and an increase in enrollment in the certificates.

4. Revise the curriculum map for BHHS and develop maps for the certificates.

Currently, it appears that students are being introduced to the same concepts in every course in the program—they never achieve mastery of any. While in the field there may be skills that are

not mastered until they are deployed, real-time, in the working world, students should be moving beyond introductory level skills once they have taken several courses in the program.

Timeline: Completed by start of the Fall 2013 Semester.

Responsible Parties: Curriculum Coordinator or Designee.

Program Response: In response to this APR recommendation, the curriculum map was revised to better reflect course sequencing. As a result of improved understanding of the curriculum mapping processes and assessment, faculty are continuously reflecting and making changes accordingly. The current curriculum map still does not accurately reflect the level of scaffolding that is currently occurring within the coursework that students are taking throughout their BHHS academic degree path. The program will review and revise the scaffolding of skills and knowledge to better reflect program outcomes, especially as those outcomes are updated and/or revised.

5. Submit requests for classrooms with appropriate technology to meet pedagogical needs for the courses where appropriate, as well as additional materials/equipment.

Although no program is guaranteed exclusive use of a specific classroom space, where the College can support documented need for technology associated with best educational practices, it should attempt to do so. The program should provide information that identifies specific courses and/or course sessions that require the need to video record students and request appropriate space for these times. Any requests for additional or new equipment, space, etc., should be submitted to the Department Head and Division Dean.

Timeline: Ongoing

Responsible Parties: Curriculum Coordinator, Department Head, Dean.

Program Response: We have successfully requested classrooms with the college course scheduler that facilitate interactive group work and offers needed technology.

6. Develop a concrete enrollment management plan for the curriculum that includes student feedback.

The program has outcomes, across the board, that are higher than the College's average.

Understanding, what specifically about the BHHS program, in more than anecdotal ways, allows for sustained high retention, transfer, and graduation rates would be valuable for the institution as a whole.

There may also be room for growth. For example, exploring the reasons for the gradual decreases in number (from more than three times the College average to twice that of the College) of graduates (e.g. financial aid issues, advising students to more closely follow the outlined course sequences, matching course offering times to student needs) and working with students to improve performance in non-major classes (as evidenced by the Perkins data) would have the potential to further increase student success in the program overall.

Timeline: Started Fall 2013 Semester; Completed Fall 2014.

Responsible Parties: Department Faculty, Director of Academic Assessment and Evaluation, Dean of Liberal Studies.

Program Response: Several factors have contributed to a decrease in enrollment in the BHHS program. Students in programs such as Liberal Arts, Liberal Arts Social Behavioral Option have historically been a recruiting pool for the BHHS program. When the Psychology program was established in 2016, it became more attractive to students who are primarily interested in transfer to 4-year institutions. Students who may have previously considered BHHS increasingly choose higher-visibility programs such as psychology when declaring a major upon admission. Online human service programs that offer greater flexibility options for students have proliferated in recent years.

The BHHS Program has traditionally had more success with recruitment in the workforce. In collaboration with the Workforce and Economic Innovation department, BHHS and The Alliance (an industry group for human services and behavioral health providers) coordinate course and certificate offerings with prospective agency partners seeking professional development for staff. Currently plans are underway to offer a 100-level BHHS course in fall 2021 that will likely result in a cohort of 15-20 students from different Alliance partner agencies. Key incentives for building reciprocal recruitment relationships with agencies include a) having courses offered at the agency so that travel to campus does not become a barrier; b) increased motivation by taking courses with co-workers; c) being able to remain at the agency for practicum. Further enrollment management activities include flexible and data driven course scheduling options, phone campaigns, collaboration with Academic Advising, Counseling, Student Development, and Admissions.

B. Action Items

The Office of Assessment and Evaluation makes the following recommendations for the Program.

Enrollment and Demographics

1. Increase Enrollment as follows:

	Fall 2018	Fall 2021		Fall 2023		Fall 2025	
	(Benchmark)						
Headcount	607	616	1.5%	638	3.6%	664	4.1%
	Students		increase in		increase in		increase in
			headcount*		headcount		headcount
		# of	% of	# of	% of	# of	% of
		students	students by	students	students	students	students
		by	category	by	by	by	by
		category		category	category	category	category
Returned		265	43%	287	45%	312	47%
to Same	39%						
Program							
Graduated	11%	70	11.4%	74	11.6%	79	11.8%
Did Not	46.6%	261	42.3%	257	40.3%	254	38.3%
Persist	40.070						
Returned	3.3%	20	3.3%	20	3.1%	19	2.9%
to	3.370						

Different				
Program				

^{*}Increase from Fall 2018 headcount

- 2. Investigate potential causes of overall enrollment decline and implement recruitment, retention, or other enrollment management interventions as indicated.
- 3. Investigate the unique needs, including material interests and enrollment patterns, of older adult students to inform planning for recruitment, retention, and growth.

Assessment

- 4. Program should discuss assessment results collectively and document use of assessment results to inform continuous improvement at the Program level.
- 5. Revise the BHHS curriculum map to reflect current practices, assessments, and PLO scaffolding.
- 6. Use previous assessment results and academic performance measures to inform development of Program Revision. Create a plan within program revision for regular PLO assessment, to include faculty discussions and follow-up steps.

Workforce Development

- 7. Because workforce development is central to sustaining and growing enrollment, Program should investigate how community trends and needs can inform program development and revision.
- 8. Take advantage of connections within the community from practicum placements, faculty connections, transfer partners, and advisory committee to enhance and broaden previously successful workforce recruitment strategies.

C. Narrative

The Behavioral Health and Human Service (BHHS) program at Community College of Philadelphia emphasizes the foundational knowledge, values, helping skills, and personal insight necessary to work with and on behalf of all people. Preparing students for engaged citizenship is an essential component of program learning outcomes. Using a whole-person and ecological approach to service delivery, the Program is teaching students to recognize themselves as change agents cultivating and advocating for resilience and transformation in individuals, families, groups, and communities.

The BHHS program is an A.A.S degree program that prepares students for both entry-level positions in the field of Human Services as well as opportunities for transfer into related curricula at four-year institutions. Providing skills-based coursework and simulated opportunities in the classroom for students to practice their skills and knowledge of underlying theoretical perspectives is the hallmark of this Program.

The BHHS Coordinator collaborates with CCP's Workforce and Economic Innovation Division to partner with behavioral health and human service employers who frequently seek out the BHHS program for

professional development, and to develop their internal career ladder by providing opportunities for their staff to attain certificates and, ultimately, degree credentials from CCP. One partnership is with The Alliance, a non-profit association of organizations who provide service to children and adults with mental health conditions, substance use disorders, and/or intellectual disabilities, among others. The BHHS Program is on track to offer a 100-level course to Alliance member agencies by fall 2021 that will lead to the Human Services Academic Certificate.

According to Phila.gov website,¹ "Philadelphia is facing the greatest public health crisis in a century. Every neighborhood in the city is being hit hard by an epidemic of opioid use and overdose." Compounding this epidemic are co-occurring variables, including mental health challenges, domestic violence and homelessness, which are left to behavioral health and human services systems to address.

The program is positioning itself to meet the concomitant issues that have arisen alongside the opioid crisis in Philadelphia by developing a new trauma-informed practice course and planning to revise and develop other coursework that supports the behavioral needs of Philadelphia's behavioral health facilities.

The BHHS program must work proactively to maintain its status as a primary means for the training and professional development of staff in behavioral health facilities. In keeping with this position, a central part of Program work within the community will continue to be presenting the two Recovery Certificates (Recovery and Transformation AC and Recovery Leadership PC) to clients in recovery programs as an educational pathway while in the process of their recovery. Thus, in collaboration with the Office of Collegiate Recovery, BHHS faculty will focus more efforts on recruitment and training within the recovery communities.

Demographics – Online 7 Week Courses

	Summer 2019		Summ	ner 2020
