## INTRODUCTION

Welcome to the Health Benefits Plan established by the Group and administered by Keystone Health Plan East, Inc..Keystone has entered into an arrangement with the Group to provide claims administration services and to make its Provider networks available for this Program.

This Benefit Booklet is a description of the terms, conditions and procedures required to be followed in order to receive the benefits and Covered Services to which the Member is entitled. Covered Services are described in the **Description Of Covered Services** section of this Benefit Booklet. Any rights of a Member to receive benefits under the Administrative Services Only Agreement and Benefit Booklet are personal to the Member and may not be assigned in whole or in part to any person, Provider or entity, nor may benefits be transferred, either before or after Covered Services are rendered. However, a Member can assign benefit payments to the custodial parent of a Dependent covered under the Administrative Services Only Agreement and Benefit Booklet, as required by law.

### **Limited Pharmacy**

(applies to coverage of Diabetes and Autism Spectrum Disorders only)

#### **Pharmacy Limitations:**

1. This benefit does not include insulin and oral agents or ASD drugs available under a Prescription Drug benefit or a Freestanding Prescription Drug agreement under this plan.
2. A pharmacy need not dispense a Prescription Order which, in the Pharmacist's professional judgment, should not be filled, without first consulting with the prescribing physician.
3. The quantity of a Prescription Drug, for purposes of cost-sharing, dispensed from a pharmacy pursuant to a Prescription Order or Refill is limited to 30 days. That is, the Member will be responsible for the cost for each 30 day supply of insulin or oral agents or their ASD drug.

## DESCRIPTION OF COVERED SERVICES

Subject to the Exclusions, conditions and Limitations of this program, the Member is entitled to benefits for the Covered Services described in this **Description of Covered Services** section. The Member may be responsible for applicable cost sharing or there may be limits on services as specified in the **Schedule of Covered Services** section of the Benefit Booklet. Additional benefits may be provided by the Group through the addition of a Rider. If applicable, this benefit information is also included with this Benefit Booklet. Please take time to read this **Description of Covered Services** and the **Schedule of Covered Services**, and use them as references whenever services are required.

Most Covered Services are provided or arranged by the Member's Primary Care Physician. In the event there is no Participating Provider to provide the specialty or subspecialty services that the Member needs, a Referral to a Non-Participating Provider will be arranged by the Member's Primary Care Physician, with approval by the Claims Administrator. See **Access to Primary, Specialist, And Hospital Care** in the **General Information** section for procedures for obtaining Preapproval for use of a Non-Participating Provider.

Some Covered Services must be Preapproved before the Member can receive the services. The Primary Care Physician or Referred Specialist must seek the Claims Administrator's approval and confirm that coverage is provided for certain services. Preapproval of services is a vital program feature that reviews Medical Necessity of certain procedures and/or admissions. In certain cases, Preapproval helps determine whether a different treatment may be available that is equally effective yet less traumatic. Preapproval also helps determine the most appropriate setting for certain services.

If a Primary Care Physician or Referred Specialist provides Covered Services or Referrals without obtaining such Preapproval, the Member will not be responsible for payment.. To access a complete list of services that require Preapproval, log onto [www.ibx.com/preapproval](http://www.ibx.com/preapproval), or the Member can call Customer Service at the phone number listed on the Member's ID Card to have the list mailed to the Member.

If the Member should have questions about any information in this Benefit Booklet or need assistance at any time, please feel free to contact Customer Service by calling the telephone number shown on the Member's ID Card.

### PRIMARY AND PREVENTIVE CARE

The Member is entitled to benefits for Primary and Preventive Care Covered Services when:

- The Member's Primary Care Physician (PCP) either provides or arranges for these Covered Services, as noted.
- The Member's Primary Care Physician (PCP) provides a Referral, when one is required, to a Participating Professional Provider when their condition requires a Specialist's Services.

If the Member receives services that result from a Referral to a Non-Participating Provider, the following will apply:

- They will be covered, when the Referral is issued by the Member's Primary Care Physician and Preapproved by the Claims Administrator.
- The Referral will be valid for 90 days from the date it was issued. This is the case, so long as the Member is still enrolled in this Program.
- If the Member receives any bills from the Provider, contact Customer Service at the telephone number found on the Member's ID card. When the Member notifies the Claims Administrator about these bills, it will resolve the balance billing.

If the Referred Specialist recommends additional Covered Services:

- This will require yet another electronic referral from the Member's Primary Care Physician.

**Self-Referrals are excluded, except for Emergency Services or if covered by a Rider.** The only time the Member can self-refer is for Emergency Services.

**Note:** Cost-sharing requirements, if any, are specified in the ***Schedule of Covered Services***.

"**Preventive Care**" services generally describe health care services performed to catch the early warning signs of health problems. These services are performed when the Member has no symptoms of disease.

"**Primary Care**" services generally describe health care services performed to treat an illness or injury.

The Claims Administrator reviews the ***Schedule of Covered Services***, at certain times.

Reviews are based on recommendations from organizations such as:

- The American Academy of Pediatrics;
- The American College of Physicians;
- The U.S. Preventive Services Task Force; and
- The American Cancer Society.

Accordingly, the frequency and eligibility of Covered Services are subject to change. A list of Preventive Care Covered Services can be found in the Preventive Schedule document. A complete listing of recommendations and guidelines can be found at <https://www.healthcare.gov/preventive-care-benefits/>.

The Claims Administrator reserves the right to modify the Preventive Schedule document at any time.

This benefit is in addition to any other nutrition counseling Covered Services described in this Benefit Booklet. The Member does not need a Referral from their Primary Care Physician to obtain services for Nutrition Counseling for Weight Management.

### **Osteoporosis Screening (Bone Mineral Density Testing or BMDT)**

The Claims Administrator will provide coverage for Bone Mineral Density Testing (BMDT) in accordance with the Preventive Schedule document. The method used needs to be one that is approved by the U.S. Food and Drug Administration. This test determines the amount of mineral in a specific area of the bone. Eligibility for these Dependents will be extended for a period equal to the duration of the Dependent's service on duty or active state duty or until the individual is no longer a full-time student regardless of the age of the Dependent when the educational program at the Accredited Educational Institution was interrupted due to military duty.

Under this Program no other benefits, except conversion privileges, will be extended to the newborn child of a Dependent unless such newborn child meets the eligibility requirements of a Dependent set forth in this section and is enrolled as a Dependent within 31 days of eligibility.

Subject to the receipt of applicable payments from the Group, and of an Enrollment/Change Form from or on behalf of each prospective Member, and subject to the provisions of this Program, coverage for Members under this Program shall become effective on the earliest of the following dates:

- Coverage for an adopted child shall become effective at birth, if a newborn, and otherwise on the date of placement, for 31 days. Coverage will continue in effect thereafter if the adopted child qualifies as a Dependent, is enrolled by the Subscriber within 31 days of
  - Birth, if a newborn or
  - If not a newborn, the date of placement, and any appropriate payment, calculated from the date of
    - Birth, if a newborn or
    - Placement, if not a newborn, is received by the Claims Administrator; or
- When an eligible person makes written application for membership during the Group Open Enrollment Period, coverage will begin on the first day of the calendar month following the conclusion of the Group Open Enrollment Period, unless otherwise agreed to by the Group and the Claims Administrator.

If on the date on which coverage under the Claims Administrator becomes effective, the Member is receiving Inpatient Care, benefits will be provided under this Program to the extent that such benefits are not provided under a prior group health insurance plan.

### **WHEN TO NOTIFY THE PROGRAM OF A CHANGE**

Certain changes in a Member's life may affect their coverage under this Program. Please notify us of any changes through the benefits office of the Member's Group Benefits Administrator. To help the Claims Administrator effectively administer Members' health care benefits, the Claims Administrator must receive notice from the Benefits Administrator of the following changes within 30 days: name; address; status or number of Dependents; marital status; eligibility for Medicare coverage, or any other changes in eligibility.

### **Open Enrollment**

The Member's Group Benefits Administrator will have an open enrollment period at least once a year, and will notify the Member of the time. At this time, the Member may add eligible Dependents to their coverage.

### **Newly Hired**

Within 30 days of becoming eligible for this new Group's Claims Administrator coverage, an individual may join this Program. The Member must add existing eligible Dependents to their coverage at this time or wait until the next open enrollment period.

### **Late Enrollment**

If an individual or an individual's Dependent did not request enrollment for coverage with this Program during the initial enrollment period and did not enroll within 30 days of the date during which the individual was first eligible to enroll under this Program, the individual may apply for coverage as a late Subscriber.

### **Marriage**

Members may add their spouse to their Program within 30 days of their marriage. Coverage for a Member's spouse will be effective on the date of their marriage.

### **New Child**

Coverage is effective at the time of birth for the newborn child of a Member, or at the time of placement for adoption for an adopted child of a Member, and shall continue for a period of 31 days after the event. If a Member chooses to continue coverage for the new child, the Member must add their eligible child (newborn or adopted child) within 31 days of the date of birth or

placement of the adopted child. Coverage will be effective from the date of birth or the day the child was placed for adoption.

Customer Service must be notified prior to hospitalization for delivery.

If a Member is required by a court order to provide health care coverage for their eligible Dependent, their Dependent will be enrolled within 30 days from the date the Claims Administrator receives notification and a copy of the court order.

**REMEMBER:** The Member must notify the Claims Administrator of any changes to Dependent coverage within 30 days of the change in order to ensure coverage for all eligible family members. Notifications to the Claims Administrator should be through the benefits office of their Group benefits administrator.

### **TERMINATION OF COVERAGE**

A Member's coverage may be cancelled, after receiving thirty (30) days advance written notice before cancellation and subject to their rights under the ***Complaint and Grievance Appeal Process***, under the following conditions:

- **Rescission:** If the Member commits intentional misrepresentation of a material fact or fraud in applying for or obtaining coverage from this Program. The Member will receive written notice at least thirty (30) days prior to termination but will have the right to utilize the ***Complaint and Grievance Appeal Process*** to appeal cancellation;
- **Misuse of ID Card:** If a Member misuses their ID Card, or allows someone other than their eligible Dependents to use a ID Card to receive care or benefits;
- **Changes to Eligibility:** If a Member ceases to meet the eligibility requirements;
- **Group Termination:** The Member's Group terminates coverage with this Program;

### **Inpatient Provision upon Termination of Coverage**

If a Member is receiving Inpatient Care in a Hospital or Skilled Nursing Facility on the day this coverage is terminated by the Claims Administrator, except for termination due to fraud or intentional misrepresentation of a material fact, the benefits shall be provided until the earliest of:

- The expiration of such benefits according to the ***Schedule of Covered Services*** included with this Benefit Booklet.
- Determination of the Primary Care Physician and the Claims Administrator that Inpatient Care is no longer Medically Necessary; or
- The Member's discharge from the facility.

**NOTE:** The Claims Administrator will not terminate the Member's coverage because of their health status, their need for Medically Necessary Covered Services or for having exercised their rights under the ***Complaint and Grievance Appeal Process***.

When a Subscriber's coverage terminates for any reason, coverage of the Subscriber's covered family members will also terminate.

### **Termination of Coverage at Termination of Employment or Membership in the Group**

Coverage for the Member under this Program will terminate on the date specified by the Group if the Claims Administrator receives from the Group notice of termination of the Member's coverage within 30 days of the date specified by the Group. If notification from the Group is not received by the Claims Administrator within 30 days of the date specified by the Group, the effective date of termination of the Member's coverage shall be 30 days prior to the first day of the month in which the Claims Administrator received the notice of termination of the Member's coverage from the Group, with the exception of any services covered under the Inpatient Provision. If the Member is receiving Inpatient Care on the date coverage is terminated, the Inpatient Provision will apply as defined above. Coverage for Dependents ends when the Member's coverage ends.

### **COVERAGE CONTINUATION**

#### **When The Employee Terminates Employment - Continuation Of Coverage Provisions Consolidated Omnibus Budget Reconciliation Act Of 1985, As Amended (COBRA)**

The Employee should contact their Employer for more information about COBRA and the events that may allow the Employee or eligible Dependent to temporarily extend health care coverage.

#### **Continuation Of Coverage Pennsylvania Act 62 of 2009 (Mini-COBRA)**

This subsection, and the requirements of Mini-COBRA continuation, applies to Groups consisting of two to 19 employees. This provision applies when the Subscriber is an eligible employee of the Group.

For purposes of this subsection, a "qualified beneficiary" means any person who, before any event which would qualify them for continuation under this subsection, has been covered continuously for benefits under this Program or for similar benefits under any group policy which it replaced, during the entire three-month period ending with such termination as:

- The Subscriber;
- The Subscriber's Dependent spouse; or
- The Subscriber's Dependent child.

In addition, any child born to or placed for adoption with the Subscriber during Mini-COBRA continuation will be a qualified beneficiary.

Any person who becomes covered under this Program during Mini-COBRA continuation, other than a child born to or placed for adoption with the Subscriber during Mini-COBRA continuation, will not be a qualified beneficiary.

- If the Subscriber Terminates Employment or Has a Reduction of Work Hours: If the Subscriber's group benefits end due to their termination of employment or reduction of work hours, the Subscriber may be eligible to continue such benefits for up to nine months, if:
  - The Subscriber's termination of employment was not due to gross misconduct;
  - The Subscriber is not eligible for coverage under Medicare;
  - The Subscriber verifies they are is not eligible for group health benefits as an eligible dependent; and
  - The Subscriber is not eligible for group health benefits with any other carrier.

The continuation will cover the Subscriber and any other qualified beneficiary who loses

coverage because of the Subscriber's termination of employment (for reasons other than gross misconduct) or reduction of work hours, subject to the "When Continuation Ends" paragraph of this subsection.

- The Group's Responsibilities: The Group must notify the Subscriber, the Benefits Administrator, and the Claims Administrator, in writing, of:
  - The Subscriber's termination of employment (for reasons other than gross misconduct) or reduction of work hours;
  - The Subscriber's death;
  - The Subscriber's divorce or legal separation from a Dependent spouse covered under this Program;
  - The Subscriber becoming eligible for benefits under Social Security;
  - The Subscriber's child ceasing to be a Dependent child pursuant to the terms of this Program;
  - Commencement of the Group's bankruptcy proceedings.

The notice must be given to the Subscriber, the Benefits Administrator and the Claims Administrator no later than 30 days of any of these events.

- The Qualified Beneficiary's Responsibilities: A person eligible for continuation under this subsection must notify, in writing, the Benefits Administrator or its designee of their election of continuation coverage within 30 days of receipt of the notice from the Group.

Continuation coverage shall be effective as of the date of the event.

Upon receipt of the Subscriber's, or the Subscriber's covered Dependent's election of continuation coverage, the Benefits Administrator, or its designee, shall notify the Claims Administrator of the election within 14 days.

- If the Subscriber Dies: If the Subscriber dies, any qualified beneficiary whose group health benefits would otherwise end may elect to continue such benefits. The continuation can last for up to nine months, subject to the "When Continuation Ends" paragraph of this subsection.
- If the Subscriber's Marriage Ends: If the Subscriber's marriage ends due to legal divorce or legal separation, any qualified beneficiary whose group health benefits would otherwise end may elect to continue such benefits. The continuation can last for up to nine months, subject to the "When Continuation Ends" paragraph of this subsection.
- If a Dependent Loses Eligibility: If the Subscriber's Dependent child's group health benefits end due to their loss of dependent eligibility as defined in this Program, other than the Subscriber's coverage ending, they may elect to continue such benefits. However, such Dependent child must be a qualified beneficiary. The continuation can last for up to nine months, subject to the "When Continued Ends" paragraph of this subsection.
- Election of Continuation: To continue their group health benefits, the qualified beneficiary must give the Benefits Administrator written notice that they elect to continue benefits under the coverage. This must be done within 30 days of the date a qualified beneficiary receives notice of their continuation rights from the Benefits Administrator as described above or 30 days of the date the qualified beneficiary's group health benefits end, if later. The Group must notify the Claims Administrator of the qualified beneficiary's election of continuation

within 14 days of the election of continuation. Furthermore, the qualified beneficiary must pay the first month's premium in a timely manner.

The subsequent premiums must be paid to the Benefits Administrator by the qualified beneficiary, in advance, at the time and in the manner set forth by the Benefits Administrator. No further notice of when premiums are due will be given.

The monthly premium will be the total rate which would have been charged for the group health benefits had the qualified beneficiary stayed insured under this Program on a regular basis. It includes any amount that would have been paid by the Group. An additional administrative charge of up to five percent of the total premium charge may also be required by the Claims Administrator.

- Grace in Payment of Premiums: A qualified beneficiary's premium payment is timely if, with respect to the first payment after the qualified beneficiary elects to continue, such payment is made no later than 45 days after such election. In all other cases, the premium payment is timely if it is made within 31 days of the specified date.
  
- When Continuation Ends: A qualified beneficiary's continued group health benefits under this Program's ends on the first to occur of the following:
  - With respect to continuation upon the Subscriber's termination of employment or reduction of work hours, the end of the nine month period which starts on the date the group health benefits would otherwise end;
  - With respect to continuation upon the Subscriber's death, the Subscriber's legal divorce or legal separation, or the end of the Subscriber's covered Dependent's eligibility, the end of the nine month period which starts on the date the group health benefits would otherwise end;
  - With respect to the Subscriber's Dependent whose continuation is extended due to the Subscriber's entitlement to Medicare, the end of the nine month period which starts on the date the group health benefits would otherwise end;
  - The date coverage under this Program ends;
  - The end of the period for which the last premium payment is made;
  - The date they become covered under any other group health plan (as an employee or otherwise) which contains no limitation or exclusion with respect to any pre-existing condition of the qualified beneficiary other than a pre-existing condition exclusion or limitation which they satisfy under the Health Insurance Portability and Accountability Act of 1996, as first constituted or later amended;
  - The date the Subscriber and/or the Subscriber's eligible dependent become eligible for Medicare.

**THE CLAIMS ADMINISTRATOR'S RESPONSIBILITIES RELATIVE TO THE PROVISION OF CONTINUATION COVERAGE UNDER MINI-COBRA ARE LIMITED TO THOSE SET FORTH IN THIS SUBSECTION.**

**THE CLAIMS ADMINISTRATOR IS NOT THE BENEFITS ADMINISTRATOR OR PLAN ADMINISTRATOR UNDER THIS PROGRAM OR FOR PURPOSES OF ERISA OR ANY OTHER FEDERAL OR STATE LAW. IN THE ABSENCE OF THE DESIGNATION OF ANOTHER PARTY AS BENEFITS ADMINISTRATOR OR PLAN ADMINISTRATOR, THE BENEFITS ADMINISTRATOR OR PLAN ADMINISTRATOR SHALL BE THE GROUP.**

## **Conversion**

If a Member or their Dependents become ineligible for coverage through their Group Program, they may apply for continuation of the coverage in an appropriate non-group program. The Member must reside in the Keystone's five county area in order to be eligible for the non-group HMO program. The five county area includes: Bucks, Chester, Delaware, Montgomery and Philadelphia counties. If the Member does not live in the Keystone's five county area, enrollment in the HMO non-group program is provided to the Member and their Dependents for 90 days from the date the Member's Group coverage ends. After this time period, the Member and their Dependents will have to convert to another plan. The Member and their Dependents may convert to the local Blue Cross®/Blue Shield® plan for the area in which they live.

A Member's application for this conversion coverage must be made to the Claims Administrator within 30 days of when the Member becomes ineligible for Group coverage. The benefits provided under the available non-group program may not be identical to the benefits under their Group Claims Administrator.

The conversion privilege is available to Members and:

- Their surviving Dependents, in the event of the Member's death;
- Their spouse, in the event of divorce; or
- Their child who has reached the Limiting Age for Dependents.

The Dependent must reside in the Keystone's five county area in order to be eligible for the non-group HMO program.

This conversion privilege is not available if the Member is terminated by the Claims Administrator for cause (such as deliberate misuse of an ID Card, significant misrepresentation of information that is given to the Claims Administrator or a Provider, or fraud).

If the Member needs more information regarding their conversion privilege, call Customer Services at the telephone number shown on their ID Card.

Should the Member choose continued coverage under COBRA (see above), they become eligible to convert to an individual, non-group plan at the end of the Member's COBRA coverage.

## **A SUMMARY OF THE PROGRAM'S FEATURES**

  - The drug causes or is reasonably expected to cause adverse or harmful reactions to the Subscriber.
    - Specific drugs;
    - Drugs used for an off-label purpose; and

- A description of the procedures followed by the Claims Administrator to make decisions about the experimental nature of individual drugs, medical devices or treatments.

- A description of the procedures used in the Claims Administrator's quality assurance program.

### **Confidentiality And Disclosure Of Medical Information**

The Claims Administrator's privacy practices, as they apply to Members enrolled in this health benefit program, as well as a description of Member s' rights to access their personal health information which may be maintained by the Claims Administrator, are set forth in the Claims Administrator's HIPAA Notice of Privacy Practices (the "Notice"). The Notice is sent to each new Member upon initial enrollment in this Claims Administrator, and, subsequently, to all Member s if and when the Notice is revised.

By enrolling in this Claims Administrator, Members give consent to the Claims Administrator to receive, use, maintain, and/or release their medical records, claims-related information, health and related information for the purposes identified in the Notice to the extent permitted by applicable law. However, in certain circumstances, which are more fully described in the Notice, a specific Member Authorization may be required prior to the Claims Administrator's use or disclosure of Members' personal health information. Members should consult the Notice for detailed information regarding their privacy rights.

### **Member Id Card**

Listed below are some important things to do and to remember about the Member's ID Card:

- Check the information on the Member's ID Card for completeness and accuracy.

- Check that the Member received one ID Card for each enrolled family member.
- Check that the name of the Primary Care Physician (or office) the Member selected is shown on the Member's ID Card. Also, please check the ID Card for each family member to be sure the information on it is accurate.
- Call Customer Service if the Member finds an error or loses their ID Card.
- Carry the Member ID Card at all times. The Member must present their ID Card whenever they receive Medical Care.

On the reverse side of the ID Card, the Member will find information about medical services, especially useful in Emergencies. There is even a toll-free number for use by Hospitals if the Member has questions about their coverage.

## PROGRAM DESIGN FEATURES

This Program is different from traditional health insurance coverage. In addition to covering health care services, access is provided to Member's Medical Care through their Primary Care Physician.

**All medical treatment begins with the Member's Primary Care Physician.** (Under certain circumstances, continuing care by a Non-Participating Provider will be treated in the same way as if the Provider were a Participating Provider. See **Continuity of Care** appearing later in the Benefit Booklet).

Because the Member's Primary Care Physician is the key to using this Program, it is important to remember the following:

- **The Member should always call their Primary Care Physician first**, before receiving Medical Care, except for conditions requiring Emergency Services. Please schedule routine visits well in advance.
- **When the Member needs Specialist Services** their Primary Care Physician will give the Member an electronic Referral for specific care or will obtain a Preapproval from the Claims Administrator when required. A Standing Referral may be available to the Member if they have a life-threatening, degenerative or disabling disease or condition.

Members may visit any participating obstetrical/gynecological Specialist without a Referral. This is true whether the visit is for preventive care, routine obstetrical/gynecological care or problem-related obstetrical/gynecological conditions. The Member's Primary Care Physician must obtain a Preapproval for Specialist Services provided by Non-Participating Providers.

- **The Member's Primary Care Physician is required to select a Designated Provider for certain Specialist Services.** Their Primary Care Physician will submit an electronic Referral to their Designated Provider for these outpatient Specialist Services:
  - Physical and occupational therapy;
  - Diagnostic Services for Members age five and older.
  - Laboratory and Pathology tests

Designated Providers usually receive a set dollar amount per Member per month (capitation) for their services based on the Primary Care Physicians that have selected them.

Outpatient services are not covered when performed by any Provider other than the Member's Primary Care Physician's Designated Provider.

Before selecting their Primary Care Physician, the Member may want to speak to the Primary Care Physician regarding their Designated Providers.

- **The Member's Primary Care Physician provides coverage 24 hours a day, 7 days a week.**
- **All continuing care as a result of Emergency Services** must be provided or Referred by the Member's Primary Care Physician or coordinated through Customer Service.
- **Some services must be authorized by the Member's Primary Care Physician or Referred Specialist or Preapproved by the Claims Administrator.** The Member's Primary Care Physician or Referred Specialist works with the Claims Administrator's Care Management and Coordination team during the Preapproval process. Services in this category include, but are not limited to: hospitalization; certain outpatient services; Skilled Nursing Facility services; and home health care. To access a complete list of services that require Preapproval, log onto [www.ibx.com/preapproval](http://www.ibx.com/preapproval), or the Member can call Customer Service at the phone number shown on their ID Card to have the list mailed to them. A Member has the right to appeal any decisions through the ***Complaint and Grievance Appeal Process***. Instructions for the appeal will be described in the denial notifications.
- **All services must be received from Participating Providers** unless Preapproved by the Claims Administrator, or except in cases requiring Emergency Services or Urgent Care while outside the Service Area.
- See Access To Primary, Specialist, And Hospital Care in this section for procedures for obtaining Preapproval for use of a Non-Participating Provider. Use the Provider Directory to find out more about the individual Providers, including Hospitals and Primary Care Physicians and Referred Specialist, and their affiliated Hospitals. It includes a foreign language index to help the Member locate a Provider who is fluent in a particular language. The directory also lists whether the Provider is accepting new patients.
- **To change the Member's Primary Care Physician**, call Customer Service at the telephone number shown on their ID Card.
- **Medical Technology Assessment is performed by the Claims Administrator.** Technology assessment is the review and evaluation of available clinical and scientific information from expert sources. These sources include and are not limited to articles published by governmental agencies, national peer review journals, national experts, clinical trials, and manufacturer's literature. The Claims Administrator uses the technology assessment process to assure that new drugs, procedures or devices are safe and effective before approving them as a Covered Service. When new technology becomes available or at the request of a practitioner or Member, the Claims Administrator researches all scientific information available from these expert sources. Following this analysis, the Claims Administrator makes a decision about when a new drug, procedure or device has been proven to be safe and effective and uses this information to determine when an item becomes a Covered Service. A Member or their Provider should contact the Claims Administrator to determine whether a proposed treatment is considered "emerging technology" and whether the provider is considered an eligible provider to perform the "emerging technology" Covered Service. The Claims Administrator maintains the discretion to limit eligible Providers for certain "emerging technology" Covered Services.

- **Prescription Drugs are covered under this Program.** Under this Program, Prescription Drugs, including medications and biologicals, are Covered Services or Supplies when ordered during the Member's Inpatient Hospital stay. In addition, if the Member does not have Prescription Drug coverage under a Claims Administrator Prescription Drug benefit, this Program will provide coverage for insulin and oral agents, as well as Prescription Drugs used in the treatment of Autism Spectrum Disorders, when the Member is not an Inpatient.

Groups may choose to provide additional Prescription Drug coverage for Prescription Drugs for use when a Member is not an Inpatient. The benefits and cost sharing will vary depending upon the program chosen. That coverage may also include a Drug Formulary. If so, the Member will be given a copy of the Drug Formulary, and the coverage may exclude, or require the Member to pay higher Copayments for certain Prescription Drugs. To obtain a copy of the Drug Formulary, the Member should call Customer Service at the phone number shown on their ID Card.

Prescription Drug benefits do not cover over-the-counter drugs except insulin.

Additionally, Prescription Drug benefits are subject to quantity level limits as conveyed by the Food and Drug Administration ("FDA") or the Claims Administrator's Pharmacy and Therapeutics Committee.

The Claims Administrator, for all Prescription Drug benefits, requires prior authorization of a small number of drugs approved by the FDA for use in specific medical conditions. Where prior authorization or quantity limits are imposed, the Member's Physician may request an exception for coverage by providing documentation of Medical Necessity. The Member may obtain information about how to request an exception by calling Customer Service at the phone number on their ID Card.

The Member, or their Physician acting on the Member's behalf, may appeal any denial of benefits or application of higher cost sharing through the ***Complaint and Grievance Appeal Process*** described later in this Benefit Booklet.

### **Disease Management And Decision Support**

Disease Management and Decision Support programs help Members to be effective partners in their health care by providing information and support to Members with certain chronic conditions as well as those with everyday health concerns. Disease Management is a systematic, population-based approach that involves identifying Members with certain chronic diseases, intervening with specific information or support to follow PCP's and Participating Professional Provider's treatment plan, and measuring clinical and other outcomes. Decision Support involves identifying Members who may be facing certain treatment option decisions and offering them information to assist in informed, collaborative decisions with their PCP's and Participating Professional Provider's. Decision Support also includes the availability of general health information, personal health coaching, PCP's and Participating Professional Provider's information, or other programs to assist in health care decisions.

Disease Management interventions are designed to help Members manage their chronic condition in partnership with their PCP's and Participating Professional Provider's. Disease Management programs, when successful, can help such Members avoid long term complications, as well as relapses that would otherwise result in Hospital or Emergency room care. Disease Management programs also include outreach to Members to obtain needed

preventive services, or other services recommended for chronic conditions. Information and support may occur in the form of telephonic health coaching, print, audio library or videotape, or Internet formats.

The Claims Administrator will utilize medical information such as claims data to operate the Disease Management or Decision Support program, to identify Members with chronic disease for example, to predict which Members would most likely benefit from these services, and to communicate results to Member's treating PCP's and Participating Professional Provider's. The Claims Administrator will decide what chronic conditions are included in the Disease Management or Decision Support program.

Participation by a Member in Disease Management or Decision Support programs is voluntary. A Member may continue in the Disease Management or Decision Support program until any of the following occurs:

- The Member notifies the Claims Administrator that they decline participation; or
- The Claims Administrator determines that the program, or aspects of the program, will not continue;
- The Member's Employer decides not to offer the programs.

### **Discretionary Authority**

The Claims Administrator retains discretionary authority to interpret this Program and the facts presented to make benefit determinations. Benefits under this Program will be provided only if the Claims Administrator determines in its discretion that the Member is entitled to them.

## **Out-Of-Area Services**

### **Overview**

Keystone Health Plan East, Inc. ("Keystone") has a variety of relationships with other Blue Cross and/or Blue Shield Plans and their Licensed Controlled Affiliates ("Licensees"). Generally, these relationships are called "Inter-Plan Arrangements." These Inter-Plan Arrangements work based on rules and procedures issued by the Blue Cross Blue Shield Association ("Association"). Whenever the Member obtains healthcare services outside of Keystone's Service Area, the claims for these services may be processed through one of these Inter-Plan Arrangements.

When the Member receives care outside of Keystone's Service Area, they will receive it from one of two kinds of providers. Most providers ("participating providers") contract with the local Blue Cross and/or Blue Shield in that geographic area ("Host Blue"). Some providers ("non-participating providers") don't contract with the Host Blue. Keystone explains below how we pay both kinds of providers.

Keystone covers only limited healthcare services received outside of our Service Area. As used in this section, "Out-of-Area Covered Healthcare Services" include Emergency Care, Urgent Care and Follow-up Care obtained outside the geographic area we serve. Any other services will not be covered when processed through any Inter-Plan Arrangements, unless authorized by the Member's Primary Care Physician ("PCP").

### **A. BlueCard® Program**

Under the BlueCard® Program, when a Member obtains Out-of-Area Covered Healthcare Services within the geographic area served by a Host Blue, Keystone will remain

responsible for doing what we agreed to in the contract. However, the Host Blue is responsible for contracting with and generally handling all interactions with its participating healthcare providers.

The BlueCard Program enables the Member to obtain Out-of-Area Covered Healthcare Services, as defined above, from a healthcare provider participating with a Host Blue, where available. The participating provider will automatically file a claim for the Out-of-Area Covered Healthcare Services provided to the Member, so there are no claim forms for the Member to fill out. The Member will be responsible for the Copayment amount, as stated in the ***Schedule of Covered Services***.

**Emergency Care Services:** If the Member experiences a Medical Emergency while traveling outside Keystone's Service Area, go to the nearest Emergency or Urgent Care facility.

When the Member receives Out-of-Area Covered Healthcare Services outside Keystone's Service Area and the claim is processed through the BlueCard Program, the amount the Member pays for the Out-of-Area Covered Healthcare Services, if not a flat dollar copayment, is calculated based on the lower of:

- The billed covered charges for the Member's Covered Services; or
- The negotiated price that the Host Blue makes available to Keystone.

Often, this "negotiated price" will be a simple discount that reflects an actual price that the Host Blue pays to the Member's healthcare provider. Sometimes, it is an estimated price that takes into account special arrangements with the Member's healthcare provider or provider group that may include types of settlements, incentive payments, and/or other credits or charges. Occasionally, it may be an average price, based on a discount that results in expected average savings for similar types of healthcare providers after taking into account the same types of transactions as with an estimated price.

Estimated pricing and average pricing also take into account adjustments to correct for over- or underestimation of modifications of past pricing of claims, as noted above. However, such adjustments will not affect the price Keystone has used for the Member's claim because they will not be applied after a claim has already been paid.

Federal or state laws or regulations may require a surcharge, tax or other fee that applies to insured accounts. If applicable, Keystone will include any such surcharge, tax or other fee as part of the claim charge passed on to you.

## **B. Non-Participating Healthcare Providers Outside Keystone's Service Area**

### Your Liability Calculation

When Out-of-Area Covered Healthcare Services are provided outside of Keystone's Service Area by nonparticipating providers, the amount you pay for such services will normally be based on either the Host Blue's nonparticipating provider local payment or the pricing arrangements required by applicable state law. In these situations, you may be responsible for the difference between the amount that the nonparticipating provider bills and the payment Keystone will make for the Out-of-Area Covered Healthcare Services as set forth in the Group Contract. Federal or state law, as applicable, will govern payments for out-of-network emergency services.

## Exceptions

In certain situations, Keystone may use other payment methods, such as billed charges for Out-of-Area Covered Healthcare Services, the payment we would make if the healthcare services had been obtained within our Service Area, or a special negotiated payment to determine the amount Keystone will pay for services provided by nonparticipating providers. In these situations, you may be liable for the difference between the amount that the nonparticipating provider bills and the payment Keystone will make for the Out-of-Area Covered Healthcare Services as set forth in the Group Contract.

### C. Blue Cross Blue Shield Global Core

If you are outside the United States, the Commonwealth of Puerto Rico and the U.S. Virgin Islands, you may be able to take advantage of Blue Cross Blue Shield Global Core when accessing Covered Services. Blue Cross Blue Shield Global Core is unlike the BlueCard Program available in the United States, the Commonwealth of Puerto Rico and the U.S. Virgin Islands in certain ways. For instance, although Blue Cross Blue Shield Global Core assists you with accessing a network of inpatient, outpatient and professional providers, the network is not served by a Host Blue. As such, when you receive care from providers outside the United States, the Commonwealth of Puerto Rico and the U.S. Virgin Islands, you will typically have to pay the providers and submit the claims yourself to obtain reimbursement for these services.

If you need medical assistance services (including locating a doctor or hospital) outside the United States, the Commonwealth of Puerto Rico and the U.S. Virgin Islands, you should call the Blue Cross Blue Shield Global Core Service Center at 1.800.810.BLUE (2583) (TTY: 711) or call collect at 1-804-673-1177, 24 hours a day, seven days a week. An assistance coordinator, working with a medical professional, will arrange a physician appointment or hospitalization, if necessary.

#### ▪ Inpatient Services

In most cases, if you contact the Blue Cross Blue Shield Global Core Service Center for assistance, hospitals will not require you to pay for covered inpatient services, except for your cost-share amounts. In such cases, the hospital will submit your claims to the service center to begin claims processing. However, if you paid in full at the time of service, you must submit a claim to receive reimbursement for Covered Services. **You must contact Keystone to obtain precertification for non-emergency inpatient services.**

#### ▪ Outpatient Services

Physicians, urgent care centers and other outpatient providers located outside the United States, the Commonwealth of Puerto Rico and the U.S. Virgin Islands will typically require you to pay in full at the time of service. You must submit a claim to obtain reimbursement for Covered Services.

## **ACCESS TO PRIMARY, SPECIALIST, AND HOSPITAL CARE**

### **Direct Access To Certain Care**

A Member does not need a Referral from their Primary Care Physician for the following Covered Services:

- Emergency Services;
- Care from a participating obstetrical/gynecological Specialist;
- Mammograms;
- Mental Health Care, Serious Mental Illness Health Care and Alcohol Or Drug Abuse And Dependency; Inpatient Hospital Services that require Preapproval. This does not include a maternity Inpatient Admission;
- Dialysis services performed in a Participating Facility Provider or by a Participating Professional Provider;
- Nutrition Counseling for Weight Management; and
- Diabetic Education Program.

### **How To Obtain A Specialist Referral**

**The Member should always consult their Primary Care Physician first when they need Medical Care.**

If the Member's Primary Care Physician refers them to a Referred Specialist or facility just follow these steps:

- The Member's Primary Care Physician will submit an electronic Referral indicating the services authorized.
- The Member's Referral is valid for 90 days from issue date as long as they are a Member.
- This form is sent electronically to the Referred Specialist or facility before the services are performed. Only services authorized on the Referral form will be covered.
- Any additional Medically Necessary treatment recommended by the Referred Specialist beyond the 90 days from the date of issue of the initial Referral will require another electronic Referral from the Member's Primary Care Physician.
- The Member must be enrolled at the time they receive services from a Referred Specialist or Non-Participating Provider in order for services to be covered.

See the ***Preapproval for Non-Participating Providers*** section of the Benefit Booklet for information regarding services provided by Non-Participating Providers.

### **How To Obtain A Standing Referral**

If the Member has a life-threatening, degenerative or disabling disease or condition, they may receive a Standing Referral to a Participating Professional Provider to treat that disease or condition. The Referred Specialist will have clinical expertise in treating the disease or condition. A Standing Referral is granted upon review of a treatment plan by the Claims Administrator and in consultation with the Member's Primary Care Physician.

Follow these steps to initiate a Standing Referral request.

- Call Customer Service at the telephone number shown on the Member's ID Card. (Or, the Member may ask their Primary Care Physician to call Provider Services or Care Management and Coordination to obtain a "Standing Referral Request" form.)
- A "Standing Referral Request" form will be mailed or faxed to the requestor.
- The Member must complete a part of the form and their Primary Care Physician will complete the clinical part. The Member's Primary Care Physician will then send the form to Care Management and Coordination.

- Care Management and Coordination will either approve or deny the request for the Standing Referral. The Member, their Primary Care Physician and the Referred Specialist will receive notice of the approval or denial in writing. The notice will include the time period for the Standing Referral.

#### If the Standing Referral is Approved

If the request for the Standing Referral to a Referred Specialist is approved, the Referred Specialist, the Member, and the Primary Care Physician will be informed in writing by Care Management and Coordination. The Referred Specialist must agree to abide by all the terms and conditions that the Claims Administrator has established with regard to Standing Referrals. This includes, but is not limited to, the need for the Referred Specialist to keep the Member's Primary Care Physician informed of their condition. When the Standing Referral expires, the Member or their Primary Care Physician will need to contact Care Management and Coordination and follow the steps outlined above to see if another Standing Referral will be approved.

#### If the Standing Referral is Denied

If the request for a Standing Referral is denied, the Member and their Primary Care Physician will be informed in writing. The Member will be given information on how to file a formal Complaint, if they so desire.

#### **Designating A Referred Specialist As A Member's Primary Care Physician**

If the Member has a life-threatening, degenerative or disabling disease or condition, they may have a Referred Specialist named to provide and coordinate both their primary and specialty care. The Referred Specialist will be a Physician with clinical expertise in treating their disease or condition. It is required that the Referred Specialist agrees to meet the Program's requirements to function as a Primary Care Physician.

Follow these steps to initiate a request for a Member's Referred Specialist to be their Primary Care Physician.

- Call Customer Service at the telephone number shown on the Member's ID Card. (Or, the Member may ask their Primary Care Physician to call Provider Services or Care Management and Coordination to initiate the request.)
- A "Request for Specialist to Coordinate All Care" form will be mailed or faxed to the requestor.
- The Member must complete a part of the form and their Primary Care Physician will complete the clinical part. The Member's Primary Care Physician will then send the form to Care Management and Coordination.
- The Medical Director will speak directly with the Member's Primary Care Physician and the selected Referred Specialist to apprise all parties of the primary services that the Referred Specialist must be able to provide in order to be designated as a Member's Primary Care Physician. If Care Management and Coordination approves the request, it will be sent to the Provider Service area. That area will confirm that the Referred Specialist meets the same credentialing standards that apply to Primary Care Physicians. (At the same time, the Member will be given a Standing Referral to see the Referred Specialist.)

#### If the Referred Specialist as Primary Care Physician Request is Approved

If the request for the Referred Specialist to be the Member's Primary Care Physician is approved, the Referred Specialist, the Member's Primary Care Physician and the Member will be informed in writing by Care Management and Coordination.

### If the Referred Specialist as Primary Care Physician Request is Denied

If the request to have a Referred Specialist designated to provide and coordinate the Member's primary and specialty care is denied, the Member and their Primary Care Physician will be informed in writing. The Member will be given information on how to file a formal Complaint, if they so desire.

### **Changing A Member's Primary Care Physician**

If a Member wishes to transfer to a different Primary Care Physician, a request can be made at any time, by:

- submitting in writing, calling the telephone number shown on the back of the Member ID Card, or using the IBX Mobile app to the HMO's Customer Service Department, or
- logging into the website at [www.ibx.com/login](http://www.ibx.com/login) and selecting Account Settings and Member Information.

The change will become effective on the earlier of:

- 14 days after the request is received (includes weekends), or
- the first day of the upcoming month.

**Exceptions:** However, changes will take effect on the first of the current month:

- when the Member did not make a PCP selection at the time of enrollment, or
- if the Member's PCP is no longer a Participating Provider.

If the participating status of the Member's Primary Care Physician changes, the Member will be notified in order to select another Primary Care Physician.

The Member must remember to have their medical records transferred to their new Primary Care Physician.

### **Changing A Member's Referred Specialist**

The Member may change the Referred Specialist to whom they have been referred by their Primary Care Physician or for whom the Member has a Standing Referral. To do so, the Member asks their Primary Care Physician to recommend another Referred Specialist before services are performed. Or, the Member may call Customer Service at the telephone number shown on their ID Card. Remember, only services authorized on the Referral form will be covered.

If the participating status of a Referred Specialist the Member regularly visit changes, they will be notified to select another Referred Specialist.

### **Continuity Of Care**

The Member has the option, if their Physician agrees to be bound by certain terms and conditions as required by the Claims Administrator, of continuing an ongoing course of treatment with that Physician. This continuation of care shall be offered through the current period of active treatment for an acute condition or through the acute phase of a chronic condition or for up to 90 calendar days from the notice that the status of the Member's Physician has changed or the Member's Effective Date of Coverage when:

- The Member's Physician is no longer a Participating Provider because the Claims Administrator terminates its contract with that Physician, for reasons other than cause; or
- The Member first enrolls in the Program and is in an ongoing course of treatment with a Non-Participating Provider.

If the Member is in their second or third trimester of pregnancy at the time of their enrollment or termination of a Participating Provider's contract, the continuity of care with that Physician will extend through post-partum care related to the delivery.

The Member should follow these steps to initiate their continuity of care:

- Call Customer Service at the number on the Member's ID Card and ask for a "Request for Continuation of Treatment" form.
- The "Request for Continuation of Treatment" form will be mailed or faxed to the Member.
- The Member must complete the form and send it to Care Management and Coordination at the address that appears on the form.

If the Member's Physician agrees to continue to provide their ongoing care, the Physician must also agree to be bound by the same terms and conditions as apply to Participating Providers.

The Member will be notified when the participating status of their Primary Care Physician changes so that they can select another Primary Care Physician.

### **Preapproval For Non-Participating Providers**

The Claims Administrator may approve payment for Covered Services provided by a Non-Participating Provider if the Member has:

- First sought and received care from a Participating Provider in the same American Board of Medical Specialties (ABMS) recognized specialty as the Non-Participating Provider that the Member has requested. (The Member's Primary Care Physician is required to obtain Preapproval from the Claims Administrator for services provided by a Non-Participating Provider.)
- Been advised by the Participating Provider that there are no Participating Providers that can provide the requested Covered Services; and
- Obtained authorization from the Claims Administrator prior to receiving care. The Claims Administrator reserves the right to make the final determination whether there is a Participating Provider that can provide the Covered Services.

If the Claims Administrator approves the use of a Non-Participating Provider, the Member will not be responsible for the difference between the Provider's billed charges and the Claims Administrator's payment to the Provider but the Member will be responsible for applicable cost-sharing amounts. If the Member receives any bills from the Provider, they need to contact Customer Service at the telephone number on their ID card. When the Member notifies the Claims Administrator about these bills, the Claims Administrator will resolve the balance billing.

### **Hospital Admissions**

- If the Member needs hospitalization or outpatient Surgery, the Member's Primary Care Physician or Referred Specialist will arrange admission to the Hospital or outpatient surgical facility on their behalf.
- The Member's Primary Care Physician or Referred Specialist will coordinate the Preapproval for their outpatient Surgery or Inpatient admission with the Claims Administrator, and the Claims Administrator will assign a Preapproval number. Preapproval is not required for a maternity Inpatient Admission.
- The Member does not need to receive an electronic Referral from their Primary Care Physician for Inpatient Hospital Services that require Preapproval.

Upon receipt of information from the Member's Primary Care Physician or Referred Specialist, Care Management and Coordination will evaluate the request for hospitalization or outpatient

Surgery based on clinical criteria guidelines. Should the request be denied after review by a Claims Administrator Medical Director, the Member, their Primary Care Physician or their Referred Specialist has a right to appeal this decision through the Grievance appeal process.

During an Inpatient hospitalization, Care Management and Coordination is monitoring the Member's Hospital stay to assure that a plan for their discharge is in place. This is to make sure that the Member has a smooth transition from the Hospital to home, or to another setting such as a Skilled Nursing or Rehabilitation Facility. A Claims Administrator Case Manager will work closely with the Member's Primary Care Physician or Referred Specialist to help with their discharge and if necessary, arrange for other medical services.

Should the Member's Primary Care Physician or Referred Specialist agree with the Claims Administrator that Inpatient hospitalization services are no longer required, the Member will be notified in writing of this decision. Should the Member decide to remain hospitalized after this notification, the Hospital has the right to bill the Member after the date of the notification. The Member may appeal this decision through the Grievance appeal process.

### **Recommended Plan Of Treatment**

The Member agrees, when enrolling in this Program, to receive care according to the recommendations of their Primary Care Physician or Referred Specialist. The Member has the right to give their informed consent before the start of any procedure or treatment. The Member also has the right to refuse any drugs, treatment or other procedure offered to them by providers in the Claims Administrator's network, and to be informed by their Physician of the medical consequences of their refusal of any drugs, treatment, or procedure.

The Claims Administrator and the Member's Primary Care Physician will make every effort to arrange a professionally acceptable alternative treatment. However, if the Member still refuses the recommended Plan of Treatment, the Claims Administrator will not be responsible for the costs of further treatment for that condition and the Member will be so notified. The Member may use the Grievance appeal process to have their case reviewed, if they so desire.

### **Special Circumstances**

In the event that Special Circumstances result in a severe impact to the availability of Providers and services, to the procedures required for obtaining benefits for Covered Services under this Program described in this Benefit Booklet (For example, obtaining Referrals, use of Participating Providers), or to the administration of this Program by the Claims Administrator, the Claims Administrator may, on a selective basis, waive certain procedural requirements of this Program. Such waiver shall be specific as to the requirements that are waived and shall last for such period of time as is required by the Special Circumstances as defined below.

The Claims Administrator shall make a good faith effort to arrange for an alternative method of providing coverage. In such event, the Claims Administrator shall provide access to Covered Services in so far as practical, and according to its best judgment. Neither the Claims Administrator nor Providers in the Claims Administrator's network shall incur liability or obligation for delay, or failure to provide or arrange for Covered Services if such failure or delay is caused by Special Circumstances.

Special Circumstances, as recognized in the community and by the Claims Administrator and appropriate regulatory authority, are extraordinary circumstances not within the control of the Claims Administrator, including but not limited to:

- A major disaster;
- An epidemic;
- A pandemic;
- Riot;
- Civil insurrection; or
- The complete or partial destruction of facilities.

### **Member Liability**

Except when certain cost sharing is specified in this Benefit Booklet or on the ***Schedule of Covered Services***, the Member is not liable for any charges for Covered Services when these services have been provided or Referred by their Primary Care Physician and they are eligible for such benefits on the date of service.

### **Right To Recover Payments Made In Error**

If the Claims Administrator should provide coverage for any contractually excluded services through inadvertence or error, the Claims Administrator maintains the right to seek recovery of such payment from the Provider or Member to whom such payment was made.

### **INFORMATION ABOUT PROVIDER REIMBURSEMENT**

The Claims Administrator reimbursement programs for health care providers are intended to encourage the provision of quality, cost-effective care for our Members. Set forth below is a general description of the Claims Administrator reimbursement programs, by type of participating health care provider. These programs vary by state.

Please note that these programs may change from time to time, and the arrangements with particular providers may be modified as new contracts are negotiated. If after reading this material the Member has any questions about how their health care provider is compensated, please speak with them directly or contact Customer Service.

### **Professional Providers**

Primary Care Physicians: Most Primary Care Physicians (PCPs) are paid in advance for their services, receiving a set dollar amount per Member, per month for each Member selecting that PCP. This is called a capitation payment and it covers most of the care delivered by the PCP. Covered Services not included under capitation are paid fee-for-service according to the Claims Administrator fee schedule. Many Pennsylvania based PCPs are also eligible to receive additional payments for meeting certain medical quality, patient service and other performance standards. In Pennsylvania, the PCP Quality Incentive Payment System (QIPS) includes incentives for practices that have extended hours and submit encounter and referral data electronically, as well as an incentive that is based on the extent to which a PCP prescribes generic drugs (when available) relative to similar PCPs. In addition, the Practice Quality Assessment Score focuses on preventive care and other established clinical interventions.

Referred Specialist: Most Referred Specialist are paid on a fee-for-service basis, meaning that payment is made according to the Claims Administrator's fee schedule for the specific medical services that the Referred Specialist performs. Obstetricians are paid global fees that cover most of their professional services for prenatal care and for delivery.

Designated Providers: For a few specialty services, PCPs are required to select a Designated Provider to which they refer all of the Claims Administrator's patients for those services. The specialist services for which PCPs must select a Designated Provider vary by state and could

include, but are not limited to, radiology and Physical Therapy. Designated Providers usually are paid a set dollar amount per Member per month (capitation) for their services based on the PCPs that have selected them. Before selecting a PCP, Members may want to speak to the PCP regarding the Designated Provider that PCP has chosen.

Hospital-Based Provider: When the Member receives Covered Services from a Hospital-Based Provider while they are an Inpatient at a Participating Hospital or other Participating Facility Provider and are being treated by a Participating Professional Provider, the Member will receive benefits for the Covered Services provided by the Non-Participating Hospital-Based Provider. A Hospital-Based Provider can bill the Member directly for their services, for either the Provider's charges or amounts in excess of the Claims Administrator's payment to the Hospital-Based Providers (That is, "balance billing"). If the Member receives any bills from the Provider, the Member needs to contact Customer Services at the telephone number on the ID card. When the Member notifies the Claims Administrator about these bills, the Claims Administrator will resolve the balance billing.

### **Institutional Providers**

Hospitals: For most inpatient medical and surgical Covered Services, Hospitals are paid per diem rates, which are specific amounts paid for each day a Member is in the Hospital. These rates usually vary according to the intensity of services provided. Some Hospitals are also paid case rates, which are set dollar amounts paid for a complete hospital stay related to a specific procedure or diagnosis, (For example, transplants).

For most outpatient and Emergency Covered Services and procedures, most Hospitals are paid specific rates based on the type of service performed. Hospitals may also be paid a global rate for certain outpatient Covered Services (For example, lab and radiology) that includes both the facility and Physician payment. For a few Covered Services, Hospitals are paid based on a percentage of billed charges. Most Hospitals are paid through a combination of the above payment mechanisms for various Covered Services.

Some Hospitals participate in a quality incentive program. The program provides increased reimbursement to these Hospitals when they meet specific quality and other criteria, including "Patient Safety Measures." Such patient safety measures are consistent with recommendations by The Leap Frog Group, Joint Commission on Accreditation of Healthcare Organizations (JCAHO), and the Agency for Health Care Research and Quality (AHRQ) and are designed to help reduce medical and medication errors. Other criteria are directed at improved patient outcomes and electronic submissions. This incentive program is expected to evolve over time.

Skilled Nursing Homes, Rehabilitation Hospitals, and other care facilities: Most Skilled Nursing Facilities and other special care facilities are paid per diem rates, which are specific amounts paid for each day a Member is in the facility. These amounts may vary according to the intensity of services provided.

### Ambulatory Surgical Centers (ASCs)

Most ASCs are paid specific rates based on the type of service performed. For a few Covered Services, some ASCs are paid based on a percentage of billed charges.

**Integrated Delivery Systems:** In a few instances, we have global payment arrangements with integrated Hospital/Physician organizations called Integrated Delivery Systems (IDS). In these cases the IDS provides or arranges for some of the Hospital, Physician and ancillary Covered Services provided to some of our Members who select PCPs which are employed by or

participate with the IDS. The IDS is paid a global fee to cover all such Covered Services, whether provided by the IDS or other Providers. These IDSs are therefore “at risk” for the cost of these Covered Services. Some of these IDSs may provide incentives to their IDS-affiliated Professional Providers for meeting certain quality, service or other performance standards.

#### Physician Group Practices and Physician Associations

Certain Physician group practices and independent Physician associations (IPAs) employ or contract with individual Physicians to provide medical Covered Services. These groups are paid as outlined above. These groups may pay their affiliated Physicians a salary and/or provide incentives based on production, quality, service, or other performance standards. In Pennsylvania, we have entered into a joint venture with an IPA. This IPA is paid a global fee to cover the cost of all Covered Services, including Hospital, professional and ancillary Covered Services provided to Members who choose a PCP in this IPA. This IPA is therefore “at risk” for the cost of these Covered Services. This IPA provides incentives to its affiliated Physicians for meeting certain quality, service and performance standards.

#### Ancillary Service Providers

Some ancillary service providers, such as Durable Medical Equipment and Home Health Care Providers, are paid fee-for-service payments according to the Claims Administrator fee schedule for the specific medical services performed. Other ancillary service providers, such as those providing laboratory, dental or vision Covered Services, are paid a set dollar amount per Member per month (capitation). Capitated ancillary service vendors are responsible for paying their contracted providers and do so on a fee-for-service basis.

#### Mental Health/ Alcohol or Drug Abuse and Dependency

A mental health/Alcohol or Drug Abuse and Dependency (“behavioral health”) management company administers most of the behavioral health benefits, provides a network of Participating Behavioral Specialists and processes the related claims. The behavioral health management company is paid a set dollar amount per Member per month (capitation) for each Member and is responsible for paying its contracted providers on a fee-for-service basis. The contract with the behavioral health management company includes performance-based payments related to quality, provider access, service, and other such parameters.

A subsidiary of Independence Blue Cross has a less than one percent ownership interest in this behavioral health management company.

### **UTILIZATION REVIEW PROCESS AND CRITERIA**

#### Utilization Review Process

Two conditions of this Program are that in order for a health care service to be covered or payable, the service must be:

- Eligible for coverage under this Program; and,
- Medically Necessary.

To assist the Claims Administrator in making coverage determinations for certain requested health care services, the Claims Administrator uses established Claims Administrator medical policies and medical guidelines based on clinically credible evidence to determine the Medical Necessity of the requested services. The appropriateness of the requested setting in which the services are to be performed is part of this assessment. The process of determining the Medical Necessity of requested health care services for coverage determinations based on the benefits available under a Member's benefit plan is called utilization review.

It is not practical to verify Medical Necessity on all procedures on all occasions, therefore certain procedures may be determined by the Claims Administrator to be Medically Necessary and automatically approved based on the accepted Medical Necessity of the procedure itself, the diagnosis reported or an agreement with the performing Provider. An example of such automatically approved services is an established list of services received in an emergency room which have been approved by the Claims Administrator based on the procedure meeting Emergency criteria and the severity of diagnosis reported (For example, rule out myocardial infarction, or major trauma). Other requested services, such as certain elective inpatient or outpatient procedures may be reviewed on a procedure specific or setting basis.

Utilization review generally includes several components which are based on when the review is performed. When the review is required before a service is performed (pre-service review) it is called Precertification (applicable when the Member's benefit plan provides benefits for services performed without the required Referral or by non-Participating Providers (That is, point-of-service coverage) or Preapproval. Reviews occurring during a Hospital stay are called concurrent reviews. Those reviews occurring after services have been performed (post-service reviews) are called retrospective reviews. The Claims Administrator follows applicable state and federally required standards for the timeframes in which such reviews are to be performed.

Generally, where a requested service is not automatically approved and must undergo Medical Necessity review, nurses perform the initial case review and evaluation for plan coverage approval using the Claims Administrator's medical policies, established guidelines and evidence-based clinical criteria and protocols; however only a Medical Director may deny coverage for a procedure based on Medical Necessity. The evidence-based clinical protocols evaluate the Medical Necessity of specific procedures and the majority is computer-based. Information provided in support of the request is entered into the computer-based system and evaluated against the clinical protocols. Nurses apply applicable benefit plan policies and procedures, taking into consideration the individual Member's condition and applying sound professional judgment. When the clinical criteria are not met, the given service request is referred to a Medical Director for further review for approval or denial. Independent medical consultants may also be engaged to provide clinical review of specific cases or for specific conditions. Should a procedure be denied for coverage based on lack of Medical Necessity a letter is sent to the requesting Provider and Member in accordance with applicable law.

The Claims Administrator's utilization review program encourages peer dialogue regarding coverage decisions based on Medical Necessity by providing Physicians with direct access to plan Medical Directors to discuss coverage of a case. The nurses, Medical Directors, other Professional Providers, and independent medical consultants who perform utilization review services are not compensated or given incentives based on their coverage review decisions. Medical Directors and nurses are salaried, and contracted external physician and other professional consultants are compensated on a per case reviewed basis, regardless of the coverage determination. The Claims Administrator does not specifically reward or provide financial incentives to individuals performing utilization review services for issuing denials of coverage. There are no financial incentives for such individuals which would encourage utilization review decisions that result in underutilization.

### **Precertification or Preapproval**

When required and applicable, Precertification or Preapproval evaluates the Medical Necessity, including the appropriateness of the setting, of proposed services for coverage under the Member's benefit plan. Examples of these services include certain planned or elective inpatient

admissions and selected outpatient procedures according to the Member's benefit plan. Where required by the Member's benefit plan, Preapproval is initiated by the Provider and Precertification is initiated by the Member.

Where Precertification or Preapproval is required, coverage of the proposed procedure is contingent upon the review being completed and receipt of the approval certification. Coverage penalties may be applied when Precertification is required for a procedure but is not obtained. If the Primary Care Physician or Referred Specialist fails to obtain Preapproval when required, and provides Covered Services or Referrals without obtaining such Preapproval, the Member will not be responsible for payment.

While the majority of services requiring Precertification or Preapproval are reviewed for medical appropriateness of the requested procedure setting (For example, inpatient, short procedure unit, or outpatient setting), other elements of the Medical Necessity of the procedure may not always be evaluated and may be automatically approved based on the procedure or diagnosis for which the procedure is requested or an agreement with the performing Provider. Precertification or Preapproval is not required for Emergency services and is not performed where an agreement with the Participating Provider does not require such review.

The following are general examples of current Precertification or Preapproval requirements under benefit plans; however these requirements vary by benefit plan and state and are subject to change

- Hysterectomy;
- Nasal surgery procedures;
- Bariatric surgery; and
- Potentially cosmetic or Experimental/Investigative Services.

### **Concurrent Review**

Concurrent review may be performed while services are being performed. This may occur during an Inpatient Admission and typically evaluates the expected and current length of stay to determine if continued hospitalization is Medically Necessary. When performed, the review assesses the level of care provided to the Member and coordinates discharge planning. Concurrent review continues until the patient is discharged. Not all inpatient stays are reviewed concurrently. Concurrent review is generally not performed where an inpatient facility is paid based on a per case or diagnosis-related basis, or where an agreement with the facility does not require such review.

### **Retrospective Review**

Retrospective review occurs after services have been provided. This may be for a variety of reasons, including the Claims Administrator not being notified of a Member's inpatient admission until after discharge or where medical charts are unavailable at the time of a required concurrent review. Certain services are only reviewed on a retrospective basis.

### **Prenotification**

In addition to the standard utilization reviews outlined above, the Claims Administrator also may determine coverage of certain procedures and other benefits available to Members through Prenotification, as required by the Members' benefit plan, and discharge planning. Prenotification is advance notification to the Claims Administrator of an inpatient admission or outpatient service where no Medical Necessity review (Precertification or Preapproval) is required, such as maternity admissions/deliveries. Prenotification is primarily used to identify

Members for concurrent review needs, to ascertain discharge planning needs proactively, and to identify who may benefit from case management programs.

### **Discharge Planning**

Discharge planning is performed during an inpatient admission and is used to identify and coordinate a Member's needs and benefit plan coverage following the Inpatient Admission, such as covered home care, ambulance transport, acute rehabilitation, or Skilled Nursing Facility placement. Discharge planning involves the Claims Administrator's authorization of post-Hospital Covered Services and identifying and referring Members to disease management or case management benefits.

### **Selective Medical Review**

In addition to the foregoing requirements, the Claims Administrator reserves the right, under its utilization and quality management programs, to perform a medical review prior to, during or following the performance of certain Covered Services ("selective medical review") that are otherwise not subject to review as described above. In addition, the Claims Administrator reserves the right to waive medical review for certain Covered Services for certain Providers, if the Claims Administrator determines that those Providers have an established record of meeting the utilization and/or quality management standards for those Covered Services. Regardless of the outcome of the Claims Administrator's selective medical review, there are no coverage penalties applied to the Member.

## **CLINICAL CRITERIA, GUIDELINES AND RESOURCES**

The following guidelines, clinical criteria and other resources are used to help make Medical Necessity coverage decisions:

### **Clinical Decision Support Criteria**

Clinical decision support criteria are an externally validated and computer-based system used to assist the Claims Administrator in determining Medical Necessity. These evidence-based, clinical decision support criteria are nationally recognized and validated. Using a model based on evaluating intensity of service and severity of illness, these criteria assist the Claims Administrator's clinical staff in evaluating the Medical Necessity and appropriateness of coverage based on a Member's specific clinical needs. Clinical decision support criteria help promote consistency in the Claims Administrator's determinations for similar medical issues and requests, and reduce practice variation among the Claims Administrator's clinical staff to minimize subjective decision-making.

Clinical decision support criteria may be applied for Covered Services including, but not limited to the following:

- Some elective surgeries—settings for inpatient and outpatient procedures (For example, hysterectomy and sinus surgery);
- Inpatient Hospital Services;
- Inpatient rehabilitation care;
- Home Health Care;
- Durable Medical Equipment; and
- Skilled Nursing Facility Services.

### **Centers for Medicare and Medicaid Services (CMS) Guidelines**

These are a set of guidelines adopted and published by CMS for coverage of services by Medicare and Medicaid for persons who are eligible and have health coverage through Medicare or Medicaid.

### **The Claims Administrator's Medical Policies**

These are the Claims Administrator's internally developed set of policies which document the coverage and conditions for certain medical/surgical procedures and ancillary services.

The Claims Administrator's medical policies may be applied for Covered Services including, but not limited to the following:

- Ambulance;
- Infusion;
- Speech Therapy;
- Occupational Therapy;
- Durable Medical Equipment; and
- Review of potential cosmetic procedures.

### **The Claims Administrator's Internally Developed Guidelines**

These are a set of guidelines developed specifically by the Claims Administrator, as needed, with input by clinical experts based on accepted practice guidelines within the specific fields and reflecting the Claims Administrator's medical policies for benefit plan coverage.

### **DELEGATION OF UTILIZATION REVIEW ACTIVITIES AND CRITERIA**

The Claims Administrator delegates its utilization review process to its affiliate, Independence Healthcare Management, a state- licensed utilization review entity. In certain instances, the Claims Administrator has delegated certain utilization review activities, which may include Preapproval, Precertification, concurrent review, and case management, to integrated delivery systems and/or entities with an expertise in medical management of a certain membership population (such as, neonates/premature infants) or a type of benefit or service (such as behavioral health or radiology). In such instances, a formal delegation and oversight process is established in accordance with applicable law and nationally-recognized accreditation standards. In such cases, the delegate's utilization review criteria are generally used, with the Claims Administrator's approval.

### **Utilization Review and Criteria for Behavioral Health Services**

Utilization Review activities for behavioral health services (mental health and Alcohol or Drug Abuse and Dependency services) have been delegated by the Claims Administrator to its contracted behavioral health management company which administers the behavioral health benefits for the majority of the Claims Administrator's Members.

### **COORDINATION OF BENEFITS**

If a Member or any of their Dependents have other group health insurance coverage which provides benefits for Hospital, medical, or other health expenses, the Member's benefit payments may be subject to Coordination of Benefits (COB). COB refers to the administration of health benefit coverage when a person is covered by more than one group plan. COB provisions:

- Determine which health plan will be the primary payor and which will be the secondary payor;
- Regulate benefit payments so that total payments by all insurers do not exceed total charges for Covered Services;
- Apply to all Member benefits, however, the Claims Administrator will provide access to Covered Services first and apply the applicable COB rules later;
- Allow the Claims Administrator to recover any expenses paid in excess of its obligation as a non-primary payor; and
- Apply to services for the treatment of injury resulting from the maintenance or use of a motor vehicle.

## **Coordination of Benefits Administration**

Determination will be made as to whether the Member is also entitled to receive benefits under any other group health care insurance plan or under any governmental program for which any periodic payment is made by or for the Member, with the exception of student accident plans, group hospital indemnity plans paying \$100 per day or less and, if provided under the Member's Program, coverage for vision expenses. If so, the Claims Administrator shall determine whether the other insurer or government plan has primary responsibility for payment. In these cases, the payment under this Program may be reduced or eliminated. The Claims Administrator will provide access to Covered Services first and determine liability later.

If it is determined that this Program is the secondary plan, the Claims Administrator has the right to recover the expense already paid in excess of this Program's liability as the secondary plan. In such cases, only care provided or Referred by the Member's Primary Care Physician will be covered by this Program as secondary. The Member is required to furnish information and to take such other action as is necessary to assure the rights of the Claims Administrator. In determining whether this Program or another group health plan has primary liability the following will apply.

- If another plan under which an individual has coverage with does not have a COB provision, that plan will be primary and this Program will be secondary. In order for services to be covered by this Program as secondary, the Member's care must be provided or Referred by their Primary Care Physician.
- If the other plan does include a Coordination of Benefits or non-duplication provision:
  - The plan which covers an individual as a Subscriber (meaning not a dependent) will be primary. The plan which covers the individual as a dependent will be secondary;
  - If there is a court decree which establishes financial responsibility for the health care expenses of the dependent child, the plan which covers the child as a dependent of the parent with such financial responsibility will be the primary plan;
  - Where both plans cover a child as a dependent, the plan of the parent whose date of birth (excluding year) occurs earlier in the calendar year will be primary (the Birthday Rule). If both parents have the same birthday, the plan covering the parent longer will be primary. If the other plan does not include this provision, the provisions of that plan will determine the order of benefits.
  - If parents are separated or divorced, and no court decree applies, the benefits for the child will be determined as follows:
    - The plan of the parent with custody of the child will be primary;
    - The plan of the spouse of the parent with custody of the child will be secondary;
    - The plan of the parent not having custody of the child will be third;
    - In cases of joint custody, benefits will be determined by the Birthday Rule.
  - Where there is a court decree which establishes financial responsibility for the health care expenses of the child, the plan which covers the child as a dependent of the parent with such financial responsibility will be the primary plan.
  - In cases of joint custody, benefits will be determined by the Birthday Rule as described in the second bulleted item above regarding the "Coordination of Benefits or non-duplication provision".
- The benefits of a plan covering the patient as a laid-off or retired employee or as the Dependent of a laid off or retired employee shall be determined after the benefits of any other plan covering such person as an employee or dependent of such person. If the other plan does not have the rule regarding laid-off or retired employees, and if, as a result, the plans do not agree on the order of benefits, the rule will be ignored.

- Where the determination cannot be made in accordance with the preceding paragraphs, the plan which has covered the patient for the longer period of time will be the primary plan.
- Expenses for the treatment of injury arising out of the maintenance or use of a motor vehicle shall be eligible for coverage only to the extent that such benefits are in excess of, and not in duplication of, benefits paid or payable:
  - Under a plan or policy of motor vehicle insurance, provided that non-duplication as contained herein is not prohibited by law; or
  - Through a program or other arrangement of qualified or certified self-insurance.
- The Claims Administrator may release to or obtain from any person or organization any information about coverage, expenses and benefits, which may be necessary to determine whether this Program has the primary responsibility of payment. For the purpose of COB, if the Member receives services or supplies available under this Benefit Booklet but such is not provided by nor Referred by the Member's Primary Care Physician payment will not be made by this Program except as provided under this Benefit Booklet.
- Services provided under any governmental program for which any periodic payment is made by or for the Subscriber shall always be the primary plan, except where prohibited by law.

This provision does not apply to an individual health care plan issued to or in the name of the Member.

## **SUBROGATION AND REIMBURSEMENT RIGHTS**

By accepting benefits for Covered Services, you agree that the Claims Administrator has the right to enforce subrogation and reimbursement rights. This section explains these rights and the responsibilities of each Member pertaining to subrogation and reimbursement. The term Member includes Eligible Dependents. The term Responsible Third Party refers to any person or entity, including any insurance company, health benefits plan or other third party, that has an obligation (whether by contract, common law or otherwise) to pay damages, pay compensation, provide benefits or make any type of payment to you for an injury or illness.

The Claims Administrator retains full discretionary authority to interpret and apply these subrogation and reimbursement rights based on the facts presented.

### **Subrogation Rights**

Subrogation rights arise when the Claims Administrator pays benefits on behalf of a Member and the Member has a right to receive damages, compensation, benefits or payments of any kind (whether by a court judgment, settlement or otherwise) from a Responsible Third Party. The Claims Administrator is subrogated to the Member's right to recover from the Responsible Third Party. This means that the Claims Administrator "stands in your shoes" – and assumes your right to pursue and receive the damages, compensation, benefits or payments from the Responsible Third Party to the full extent that the Claims Administrator has reimbursed you for medical expenses or paid medical expenses on your behalf, plus the costs and fees that are incurred by the Claims Administrator to enforce these rights. The right to pursue a subrogation claim is not contingent upon whether or not you pursue the Responsible Third Party for any recovery.

### **Reimbursement Rights**

If a Member obtains any recovery — regardless of how it's described or structured — from a Responsible Third Party, the Member must fully reimburse the Claims Administrator for all

medical expenses that were paid to the Member or on the Member's behalf, plus the costs and fees that are incurred by the Claims Administrator to enforce these rights. The Claims Administrator has a right to full reimbursement.

## **Lien**

By accepting benefits for Covered Services from the Claims Administrator you agree to a first priority equitable lien by agreement on any payment, reimbursement, settlement or judgment received by you, or anyone acting on your behalf, from any Responsible Third Party. As a result, you must repay to the Claims Administrator the full amount of the medical expenses that were paid to you or on your behalf out of the amounts recovered from the Responsible Third Party (plus the costs and fees that are incurred by the Claims Administrator to enforce these rights) first, before funds are allotted toward any other form of damages, whether or not there is an admission of fault or liability by the Responsible Third Party. The Claims Administrator has a lien on any amounts recovered by the Member from a Responsible Third Party, regardless of whether or not the amount is designated as payment for medical expenses. This lien will remain in effect until the Claims Administrator is reimbursed in full.

## **Constructive Trust**

If you (or anyone acting on your behalf) receive damages, compensation, benefits or payments of any type from a Responsible Third Party (whether by a court judgment, settlement or otherwise), you agree to maintain the funds in a separate, identifiable account and that the Claims Administrator has a lien on the monies. In addition you agree to serve as the trustee over the monies for the benefit of Claims Administrator to the full extent that the Claims Administrator has reimbursed you for medical expenses or paid medical expenses on your behalf, plus the attorney's fees and the costs of collection incurred by the Claims Administrator.

- These subrogation and reimbursement rights apply regardless of whether money is received through a court decision, settlement, or any other type of resolution.
- These subrogation and reimbursement rights apply even if the recovery is designated or described as covering damages other than medical expenses (such as property damage or pain and suffering).
- These subrogation and reimbursement rights apply with respect to any recoveries made by the Member, including amounts recovered under an uninsured or underinsured motorist policy.
- The Claims Administrator is entitled to recover the full amount of the benefits paid to the Member or on the Member's behalf plus the costs and fees that are incurred by the Claims Administrator to enforce these rights without regard to whether the Member has been made whole or received full compensation for other damages (including property damage or pain and suffering). The recovery rights of the Claims Administrator will not be reduced by the "made whole" doctrine or "double recovery" doctrine.
- The Claims Administrator will not pay, offset any recovery, or in any way be responsible for attorneys' fees or costs associated with pursuing a claim against a Responsible Third Party unless the Claims Administrator agrees to do so in writing. The recovery rights of the Claims Administrator will not be reduced by the "common fund" doctrine.

- In addition to any coordination of benefits rules described in this booklet, the benefits paid by the Claims Administrator will be secondary to any no-fault auto insurance benefits and to any worker's compensation benefits (no matter how any settlement or award is characterized) to the fullest extent permitted by law.
- These subrogation and reimbursement rights apply and will not be decreased, restricted, or eliminated in any way if the Member receives or has the right to recover no-fault insurance benefits. All rights under this section are enforceable against the heirs, estate, legal guardians or legal representatives of the Member.
- The Claims Administrator is entitled to recover the full amount of the medical benefits paid without regard to any claim of fault on your part.

### **Obligations of Member**

- Immediately notify the Claims Administrator or its designee in writing if you assert a claim against a Responsible Third Party, whether informally or through judicial or administrative proceedings.
- Immediately notify the Claims Administrator or its designee in writing whenever a Responsible Third Party contacts you or your representative - or you or your representative contact a Responsible Third Party - to discuss a potential settlement or resolution.
- Refuse any offer to settle, adjust or resolve a claim for damages, benefits or compensation that involves an injury, illness or medical expenses in any way, unless and until you receive written authorization from the Claims Administrator or its delegated representative.
- Fully cooperate with the Claims Administrator and its designated representative, as needed, to allow for the enforcement of these subrogation and reimbursement rights and promptly supply information/documentation when requested and promptly execute any and all forms/documents that may be needed.
- Avoid taking any action that may prejudice or harm the Claims Administrator ability to enforce these subrogation and reimbursement rights to the fullest extent possible.
- Fully reimburse the Claims Administrator or its designated representative immediately upon receiving compensation of any kind (whether by court judgment, settlement or otherwise) from a Responsible Third Party.
- Serve as trustee for any and all monies paid to (or payable to) you or for your benefit by any Responsible Third Party to the full extent the Claims Administrator paid benefits for an injury or illness.
- All of these Obligations apply to the heirs, estate, legal guardians or legal representatives of the Member.

### **IMPORTANT: Failure to Cooperate**

If you fail or refuse to sign forms or documents as requested or otherwise fail or refuse to cooperate or abide by any of the obligations described above, the Claims Administrator or Plan Administrator, as applicable, has full discretion and authority to reduce or withhold benefit

payments to recover subrogation/reimbursement amounts that are owed and/or to terminate your participation in the benefit program.

## **CLAIM PROCEDURES**

Most claims are filed by Providers in the Claims Administrator's network. The following applies if the Member must submit a claim.

### **Notice of Claims**

The Claims Administrator will not be liable for any claims under this Program unless proper notice is furnished to the Claims Administrator that Covered Services in this Program have been rendered to a Member.

Written notice of a claim must be given to the Claims Administrator within 20 days, or as soon as reasonably possible after Covered Services have been rendered to the Member. Notice given by or on behalf of the Member to the Claims Administrator that includes information sufficient to identify the Member that received the Covered Services, shall constitute sufficient notice of a claim to the Claims Administrator.

The Member can give notice to the Claims Administrator by calling Customer Service. The telephone number and address of Customer Service can be found on the Member's ID Card. A charge shall be considered Incurred on the date a Member receives the Covered Service for which the charge is made.

### **Proof of Loss**

Claims cannot be paid until a written proof of loss is submitted to the Claims Administrator. Written proof of loss must be provided to the Claims Administrator within 90 days after the charge for Covered Services is Incurred. Proof of loss must include all data necessary for the Claims Administrator to determine benefits. Failure to submit a proof of loss to the Claims Administrator within the time specified will not invalidate or reduce any claim if it is shown that the proof of loss was submitted as soon as reasonably possible, but in no event, except in the absence of legal capacity, will the Claims Administrator be required to accept a proof of loss later than 12 months after the charge for Covered Services is Incurred.

### **Claim Forms**

If a Member (or if deceased, by their personal representative) is required to submit a proof of loss for benefits under this Program, it must be submitted to the Claims Administrator on the appropriate claim form. The Claims Administrator, upon receipt of a notice of claim will, within 15 days following the date notice of claim is received, furnish to the Member claim forms for filing proofs of loss. If claim forms are not furnished within 15 days after the giving of such notice, the Member shall be deemed to have complied with the requirements of this subsection as to filing a proof of loss upon submitting, within the time fixed in this subsection for filing proofs of loss, itemized bills for Covered Services as described below. Itemized bills may be submitted to the Claims Administrator at the address appearing on the Member's ID Card. Itemized bills cannot be returned.

### **Submission of Claims Forms**

For Member-submitted claims, the completed claim form, with all itemized bills attached, must be forwarded to the Claims Administrator at the address appearing on the claim form in order to satisfy the requirement of submitting a written proof of loss and to receive payment for benefits provided under this Program.

To avoid delay in handling Member-submitted claims, answers to all questions on the claim form must be complete and correct. Each claim form must be accompanied by itemized bills showing all of the following information:

- Person or organization providing the service or supply;
- Type of service or supply;
- Date of service or supply;
- Amount charged; and
- Name of Patient.

A request for payment of a claim will not be reviewed and no payment will be made unless all the information and evidence of payment required on the claim form has been submitted in the manner described above. The Claims Administrator reserves the right to require additional information and documents as needed to support a claim that a Covered Service has been rendered.

### **Timely Payment of Claims**

Claims payment for benefits payable under this Program will be processed immediately upon receipt of proper proof of loss.

### **Physical Examinations and Autopsy**

The HMO at its own expense shall have the right and opportunity to examine the Member when and so often as it may reasonably require during the pendency of claim under the Contract; and the HMO shall also have the right and opportunity to make an autopsy in case of death, where it is not prohibited by law.

### **Payment of Claims**

If any indemnity of the Contract shall be payable to the estate of the Member, or to a Member or beneficiary who is a minor or otherwise not competent to give a valid release, the HMO may pay such indemnity, up to an amount not exceeding \$1,000, to any relative by blood or connection by marriage of the Member or beneficiary who is deemed by the HMO to be equitably entitled thereto. Any payment made by the HMO in good faith pursuant to this provision shall fully discharge the HMO to the extent of such payment.

### **Time Limit on Certain Defenses**

After three (3) years from the date of issue of the Contract, no misstatements, except fraudulent misstatements made by the Applicant in the Application for such Contract, shall be used to void said Contract or to deny benefits for a claim incurred commencing after the expiration of such three (3) year period.

### **Legal Action**

No legal action may be commenced against the Health Benefit Plan with respect to the Contract until at least sixty (60) days after the Health Benefit Plan has received a properly completed claim form, Referral or encounter form. No legal action against the Health Benefit Plan with respect to the Contract may be filed later than three (3) years after the Covered Services or supplies were performed or provided.

In addition, no legal action regarding a Complaint or Grievance may be commenced against the Health Benefit Plan until the Member has exhausted their administrative remedies and appeals as detailed in this Contract.

## **COMPLAINT AND GRIEVANCE APPEAL PROCESS RESOLVING PROBLEMS**

### **MEMBER COMPLAINT PROCESS**

The Claims Administrator has a process for Members to express complaints. To register a Complaint, Members should call the Member Services Department at the telephone number on the Identification Card or write to the Claims Administrator at the following address:

**General Correspondence  
1901 Market Street  
Philadelphia, PA 19103**

Most Member concerns are resolved informally at this level. However, if the Claims Administrator is unable to immediately resolve the Member Complaint, it will be investigated and the Member will receive a response in writing within **30 days**.

### **MEMBER APPEAL PROCESS**

**Filing an Appeal** - The Claims Administrator maintains procedures for the resolution of Member appeals. Member appeals may be filed within **180 days** of the receipt of a decision from the Claims Administrator stating an adverse benefit determination. An appeal occurs when the Member or, after obtaining the Member's authorization, either the Provider or another authorized representative requests a change of a previous decision made by the Claims Administrator by following the procedures described here. (In order to authorize someone else to be the Member's representative for the appeal, the Member must complete a valid authorization form. The Member must contact the Claims Administrator as directed below to obtain a Member/Enrollee Authorization to appeal by Provider or Other Representative" form or for questions regarding the requirements for an authorized representative.)

The Member or other authorized person on behalf of the Member (Designee), may request an appeal by calling or writing to the Claims Administrator, as defined in the letter notifying the Member of the decision or as follows:

**Member Appeals Department  
P.O. Box 41820  
Philadelphia, PA, 19101-1820

### **Definitions**

**MEDICAL NECESSITY APPEAL** – An appeal by or on behalf of a Member that focuses on issues of Medical Necessity and requests the Claims Administrator to change its decision to deny or limit the provision of a Covered Service. Medical Necessity Appeals include appeals of adverse benefit determinations based on the exclusions for Experimental/Investigative or cosmetic services.

**ADMINISTRATIVE APPEAL** - An appeal by or on behalf of a Member that focuses on unresolved member disputes or objections regarding the Claims Administrator decision that concerns coverage terms such as contract exclusions and non-covered benefits, exhausted benefits, claims payment issues, participating or Non-Participating healthcare Provider status, cost sharing requirements, and rescission of coverage (except for failure to pay premiums or coverage contributions). Although an Administrative Appeal may present issues related to Medical Necessity, these are not the primary issues that affect the outcome of the appeal.

**PRE-SERVICE REVIEW** – A request for benefits that, under the terms of this Program, must be pre-certified or pre-approved (either in whole or in part) before medical care is obtained, in order for coverage to be available.

**POST-SERVICE REVIEW** – A request for benefits that is not a Pre-Service request. (Post-Service Reviews concerning claims for services that the Member has already obtained do not qualify for review as Urgent/Expedited Appeals.)

**URGENT/EXPEDITED/ APPEAL** – Any appeal for medical care or treatment with respect to which the application of the time periods for making non-urgent determinations could seriously jeopardize the life or health of the Member or the ability of the Member to regain maximum function, or in the opinion of a physician with knowledge of the Member's medical condition would subject the Member to severe pain that cannot be adequately managed without the care or treatment that is the subject of the appeal. This process is handled by the Plan Administrator.

### **General Information**

The Member/Designee may at any time request the aid of a plan employee in preparing the appeal, at no charge. This employee has not participated in the previous decision to deny coverage for the issues in dispute and is not a subordinate of anyone who previously reviewed the file.

The Member/Designee is entitled to a full and fair review. Specifically, at any time during the process, the Member/Designee may submit additional information pertaining to the case, to the Claims Administrator. The Member/Designee may specify the remedy or corrective action being sought. At the Member's request, the Claims Administrator will provide access to, and copies of, all relevant documents, records, and other information that are not confidential, proprietary, or privileged. The Claims Administrator will automatically provide the Member/Designee with any new or additional evidence considered, relied upon, or generated by the plan in connection with the appeal, which is used to formulate the rationale. Such evidence is provided as soon as possible and in advance of the date the adverse notification is issued. This information is provided to the Member/Designee at no charge.

The Claims Administrator will not terminate or reduce an ongoing course of treatment without providing the Member/Designee with advance notice and the opportunity for advanced review.

If the appeal is upheld, the letter states the reason(s) for the decision. If a benefit provision, internal, rule, guideline, protocol, or other similar criterion is used in making the determination; the Member/Designee may request copies of this information at no charge. The letter explains the scientific or clinical judgment, if applicable, for the determination. The letter also indicates the qualifications of the individual/individuals who decided the appeal and their understanding of the nature of the appeal. The Member/Designee may request in writing, at no charge, the name of the individuals who participated in the decision to uphold the denial.

If the health plan is subject to the requirements of the Employee Retirement Income Security Act (ERISA), following the appeal the Member may have the right to bring civil action under Section 502(a) of the Act.

Changes in Members Grievance Processes: Please note that the Appeals Process described here may change at any time due to changes in the applicable regulations and/or accreditation standards, to improve or facilitate the review process, or to reflect other decisions regarding the administration of the Member Appeals processes for this Program.

All Internal Appeals can be initiated by contacting:

**Member Appeals Department**  
**P.O. Box 41820**  
**Philadelphia, PA, 19101-1820**  
**Toll Free 1-888-671-5276 (TTY: 711)**  
**Toll Free Fax 1-888-671-5274**

**INTERNAL APPEALS - There are two levels of appeal.** The internal, standard appeal process for Administrative Appeals and Medical Necessity Appeals consists of two internal levels of review—the first by the Claims Administrator and a second by the Plan Administrator. Further review, if any, is only available through the Plan Administrator. There is also an internal Urgent/Expedited Appeal Process available through the Plan Administrator in the event **the Member's** condition involves an issue that may jeopardize the Member's life, health, ability to regain maximum function, or would subject **the Member** to severe pain that cannot be adequately managed, as determined and validated by the Member's Physician, if reviewed in **standard Pre-Service appeal timeframes.**

### **Level One Standard Appeal**

The initial request for an appeal will be evaluated and the decision completed within the following timeframes for a standard appeal on an Administrative or Medical Necessity Appeal issue:

Standard Pre-Service service Appeal – within **15 days** of receipt of the Appeal request;  
Standard Post-Service service Appeal – within **30 days** of receipt of the Appeal request.

An employee of the Claims Administrator, who has had no previous involvement with the case and who is not the subordinate of anyone involved in the previous determination, reviews the appeal. A Medical Necessity Appeal is decided by a health professional. This individual holds an active, unrestricted license to practice medicine or another health profession. Additionally, either this individual or an independent consultant is of the same profession and similar specialty that typically manages the care under review.

The Member/Designee will be sent written notice of the First Level decision within the timeframe stated above along with a description on how the Member/Designee can appeal to the next level.

## **Level Two Standard Appeal**

If not satisfied with the First Level decision, the Member or designee may request a Second Level Appeal within **60 days** of receipt of the First Level decision notice.

Under the appeal process in effect for this Program, the Plan Administrator is responsible for the standard Second Level Administrative Appeal and Medical Necessity Appeal processes. Once the request for a Second Level Standard Appeal is received, the Claims Administrator forwards the request and all Appeal documents to the Plan Administrator for a determination. The Plan Administrator advises the Member/Designee of the decision regarding the Administrative Appeal or Medical Necessity Appeal and of any additional Appeal rights that may be available for an external review.

## **Urgent/Expedited Appeals**

Under the appeal process in effect for this Program, the Plan Administrator is responsible for the Expedited Administrative Appeal and Expedited Medical Necessity Appeal processes. Once the request for an Urgent/Expedited Appeal is received, the Claims Administrator forwards the request and all appeal documents in its possession to the Plan Administrator. The Plan Administrator advises the Member/Designee of the decision regarding the Expedited Administrative Appeal or Medical Necessity Appeal and of any additional appeal rights that may be available for an external review.

**URGENT/EXPEDITED/ APPEAL** – Any appeal for medical care or treatment with respect to which the application of the time periods for making non-urgent determinations could seriously jeopardize the life or health of the Member or the ability of the Member to regain maximum function, or in the opinion of a physician with knowledge of the Member's medical condition would subject the Member to severe pain that cannot be adequately managed without the care or treatment that is the subject of the appeal. The Claims Administrator will notify the Member/Designee of the decision within 72 hours of receipt of the request by the Claims Administrator.

## **INTERNAL APPEALS**

### **Level One Standard Appeal**

The initial request for an internal appeal will be reviewed and the decision completed within the following timeframes for a standard appeal on an Administrative or Medical Necessity Appeal issue:

Standard Pre-Service service Appeal – within **15 days** of receipt of the Appeal request;  
Standard Post-Service service Appeal – within **30 days** of receipt of the Appeal request.

An employee of the Claims Administrator, who has had no previous involvement with the case and who is not the subordinate of anyone involved in the previous determination, reviews the internal appeal. A Medical Necessity Appeal is decided by a health professional. This individual holds an active, unrestricted license to practice medicine or another health profession. Additionally, either this individual or an independent consultant is of the same profession and similar specialty that typically manages the care under review.

The Member will be sent written notice of the First Level decision within the timeframe stated above along with a description on how the Member can appeal to the next level.

### **Level Two Standard Appeal**

If not satisfied with the First Level decision, the Member/Designee may request a Second Level Appeal within **60 days**. The appeal will be reviewed and the decision completed within the following timeframes for an Appeal on an Administrative or Medical Necessity Appeal issue:

Standard Pre-Service Appeal – within **15 days** of receipt of the appeal request;  
Standard Post-Service Appeal – within **30 days** of receipt of the appeal request.

The Member/Designee has the right to present the Member's Appeal to the Second Level Appeal Committee in person or via conference call. The committee is composed of an employee/employees of the Claims Administrator who have no previous involvement with the case and are not subordinates of anyone previously involved with the case. For Medical Necessity reviews, at least one of these individuals is a Plan Medical Director who holds an active, unrestricted license. Second Level Appeal Committee meeting is a forum where Members/Designees each have an equal amount of time to present their issues in an informal setting that is not open to the public. Two other people may accompany the Member/Designee, unless the Member receives prior approval from the Claims Administrator for additional assistance due to special circumstances. Members of the press may only attend in their personal capacity as a Member's representative. Members/Designees may not audiotape, videotape, or transcribe the committee proceedings. The Claims Administrator will contact the Member/Designee to schedule the Committee meeting for the Standard Appeal. The Appeal review may also occur based on the Appeal record without the Member's participation if he/she does not want to participate or repeated attempts to schedule the Member's participation fail. Written notice of the second level decision will be sent within the timeframes stated above.

The second level decision is the final standard level of internal appeal. The external review process for both Medical Necessity and Administrative Appeals is described under the section entitled "External Standard and Expedited Reviews" below.

## **Urgent/Expedited Appeals**

If the case involves an urgent condition, the Member/Designee may request an Urgent/Expedited Internal Appeal. The Internal Appeal mirrors the process described under the “Level Two Standard Appeal” above.

A determination is made and the Member/Designee is notified within 72 hours of receipt of the Urgent/Expedited request by the Claims Administrator. Additionally, the Claims Administrator sends written notification to the Member/Designee within three calendar days of the verbal decision.

Individuals with Urgent Care conditions or who are receiving an on-going course of treatment may proceed with an Expedited External Review at the same time as the Internal Urgent/Expedited Appeal Process.

Additional Appeal rights for both Medical Necessity and Administrative Appeals are described below under “External Standard and Expedited Reviews.”

## **EXTERNAL STANDARD AND URGENT/EXPEDITED REVIEWS**

If the Member/Designee is not satisfied with the decision of the Internal Standard Second Level or Urgent/Expedited Appeal, the Member/Designee may file an external review—Standard or Expedited—as described below for either an Administrative or Medical Necessity issue. Both types of external review are submitted to Independent Review Organizations (IROs).

### **External Standard Review**

The Member/Designee may request an external review by an IRO by calling or writing to the Claims Administrator within **180 calendar days** of receipt of the Internal Appeal decision letter. The Member/Designee is not required to pay any of the costs associated with the external review.

The Member/Designee is sent written confirmation of receipt of his/her external review request from the Claims Administrator within five business days of receipt of the request. This confirmation includes the name and contact information for the Claims Administrator staff person assigned to facilitate the processing of the Member’s Appeal and information on the IRO assignment. Information on the IRO assignment identifies the assigned IRO by name and states the qualifications of the individual who reviews the appeal.

Whenever possible, the IRO assigned to the external review request, is a different organization than the one that supplied the same/or similar specialty review for the internal Appeal process. The individual appointed by the IRO to review the Member’s external review, has not been previously involved in any aspect of decision-making on the appeal, nor are they a subordinate of any previous decision-maker.

The IRO has no direct or indirect professional, familial or financial conflicts of interest with the Claims Administrator, with the Member, or the Designee. The Claims Administrator’s arrangements for assignment of an IRO and payment for the services of an IRO do not constitute a conflict of interest. When a conflict of interest is raised or another material objection is recognized, the Claims Administrator assigns a new IRO and/or requires the assigned IRO to appoint a new reviewer. This reviewer is not the same person who served as a matched

specialist for the internal appeal process, nor a subordinate of that person. If the Member/Designee feels that a conflict exists, he/she should call or write the contact person listed on the acknowledgement letter from the Claims Administrator no later than two business days from receipt of the acknowledgment letter from the Claims Administrator.

Within 15 calendar days of receipt of the Member's request, the Claims Administrator sends the Member/Designee and the IRO, a letter listing all documents forwarded to the IRO. These documents include copies of all information submitted for the Internal Appeal process, as well as any additional information that the Member/Designee or the Claims Administrator may submit. If the Member wishes to submit additional information for consideration by the IRO, he should do so within ten calendar days of the Member's request for an external review.

The Claims Administrator does not interfere with the IRO's proceedings or appeals decisions. The IRO conducts a thorough review in which it considers all previously determined facts, allows the introduction of new information considers and assesses sound medical evidence, and makes a decision that is not bound by the decisions or conclusions of the Internal Appeal process.

The IRO makes its final decision within **30 calendar days** of receipt of the Member's request by the Claims Administrator and simultaneously issues its decision in writing to the Member or Designee and to the Claims Administrator. The established deadline for a decision from the IRO may only be exceeded for good cause when a reasonable delay for a specific period is acceptable to the Member or Designee. If the decision of the IRO is that the services are covered, the Claims Administrator authorizes the service and/or pays the claims. The Member/Designee is notified in writing of the time and procedure for claim payment or approval of the service in the event of an overturn of the Member's Internal Appeal. The Claims Administrator implements the IRO's decision within the time period, if any, specified by the IRO.

The external review decision is binding on the Claims Administrator.

### **External Urgent/ Expedited Review**

The Member/Designee may request an external review for urgent/expedited situations through an IRO. The Member or designee is not required to pay any of the costs associated with the external review.

With the exception of time frames, the Urgent/Expedited External Review mirrors the process described above under the External Standard Review.

Within **24 hours** of receipt of the Member's request for an Urgent/Expedited Review, the Claims Administrator confirms the request and faxes the request to the assigned IRO. During this time, the Claims Administrator also forwards to the IRO, by secure electronic transmission or overnight delivery, all information submitted in the Internal Appeal Process and any additional information that the Member, Designee, or the Claims Administrator wishes to submit to the IRO.

The IRO makes a decision and simultaneously notifies the Member/Designee and the Claims Administrator in writing within **48 hours** of receipt of all relevant documentation. The decision letter identifies the assigned IRO by name and states the qualifications of the individual that the IRO appoints to review the external review.

The time period for issuing the final decision on the Urgent/Expedited Review can be extended for **five calendar days** for good cause when such a delay is acceptable to the Member or his authorized representative.

If the decision of the IRO is that the services are eligible, the Claims Administrator authorizes the service and/or pays the claims. The Member is notified in writing of the time and procedure for claim payment and/or approval of the service in the event of an overturn of the appeal. The Claims Administrator implements the IRO's decision within the time period, if any, specified by the IRO.

The external review decision is binding on the Claims Administrator

## INTRODUCTION

Thank you for joining QCC Insurance Company (Claims Administrator). Our goal is to provide Members with access to quality health care coverage. This Benefit Booklet is a summary of the Members benefits and the procedures required in order to receive the benefits and services to which Members are entitled. Members' specific benefits covered by Claims Administrator are described in the **Description of Covered Services** section of this Benefit Booklet. Benefits, exclusions and limitations appear in the **Exclusions – What Is Not Covered** and the **Schedule of Covered Services** sections of this Benefit Booklet.

Please remember that this Benefit Booklet is a summary of the provisions and benefits provided in the Program selected by the Members Group. Additional information is contained in the Group Program Document available through the Members Group benefits administrator. The information in this Benefit Booklet is subject to the provisions of the Group Program Document. If changes are made to the Members Group's Program, the Member will be notified by the Members Group benefits administrator. Group Program Document changes will apply to benefits for services received after the effective date of change.

If changes are made to this Program, the Member will be notified. Changes will apply to benefits for services received on or after the effective date unless otherwise required by applicable law. The effective date is the *later* of:

- The effective date of the change;
- The Members Effective Date of coverage; or
- The Group Program Document anniversary date coinciding with or next following that service's effective date.

Please read the Benefit Booklet thoroughly and keep it handy. It will answer most questions regarding the Claims Administrator's procedures and services. **If Members have any other questions, they should call the Claims Administrator's Customer Service Department ("Customer Service") at the telephone number shown on the Members Identification Card ("ID Card").**

Any rights of a Member to receive benefits under the Group Program Document and Benefit Booklet are personal to the Member and may not be assigned in whole or in part to any person, Provider or entity, nor may benefits be transferred, either before or after Covered Services are rendered. However, a Member can assign benefit payments to the custodial parent of a Dependent covered under the Group Program Document and Benefit Booklet, as required by law.

See **Important Notices** section for updated language and coverage changes that may affect this Benefit Booklet.

## DESCRIPTION OF COVERED SERVICES

Subject to the exclusions, conditions and limitations of this Program, a Member is entitled to benefits for the Covered Services described in this **Description of Covered Services** section during a Benefit Period, subject to any Copayment, Deductible, Coinsurance, Out-of-Pocket Limit or Lifetime Maximum. These amounts and percentages, and other cost-sharing requirements are specified in the **Schedule of Covered Services**.

The Member will maximize the benefits available when Covered Services are provided by Participating Providers. The benefits of using these Providers include lower Coinsurance payments, no balance billing and no claim forms. The **General Information** section provides more detail regarding these benefits.

Some Covered Services must be Precertified before the Member receives the services. Precertification of services is a vital program feature that reviews Medical Necessity of certain procedures and/or admissions. In certain cases, Precertification helps determine whether a different treatment may be available that is equally effective yet less traumatic. Precertification also helps determine the most appropriate setting for certain services. Failure to obtain a required Precertification for a Covered Service could result in a reduction of benefits. More information on Precertification is found in the **General Information** section.

### PRIMARY AND PREVENTIVE CARE

A Member is entitled to benefits for Primary Care and Preventive Care Covered Services when deemed Medically Necessary and billed for by a Provider. Cost-sharing requirements are specified in the **Schedule of Covered Services**.

"Preventive Care" services generally describe health care services performed to catch the early warning signs of health problems. These services are performed when the Member has no symptoms of disease. "Primary Care" services generally describe health care services performed to treat an illness or injury.

The Claims Administrator reviews the schedule of Covered Services, at certain times. Reviews are based on recommendations from national organizations of:

- Physicians, including pediatricians and internists;
- National independent panels of experts in primary care and prevention;
- National not-for-profit health organizations; and
- Government advisory panels.

Accordingly, the frequency and eligibility of Covered Services are subject to change. A list of Preventive Care Covered Services can be found in the Preventive Schedule document. A complete listing of recommendations and guidelines can be found at <https://www.healthcare.gov/preventive-care-benefits/>.

The Claims Administrator reserves the right to modify the Preventive Schedule document at any time. However, the Member has to be given a written notice of the change, before the change takes effect.

- Mandated to be covered by law, such as insulin or any drugs required for the treatment of diabetes, unless these drugs are covered by a Free-Standing Prescription Drug Contract issued to the Group by the Claims Administrator; or

## GENERAL INFORMATION

### ELIGIBILITY, CHANGE AND TERMINATION RULES UNDER THE PROGRAM

**Effective Date:** The date the Group agrees that all eligible persons may apply and become covered for the benefits as set forth in this Program and described in this Benefit Booklet. If a person becomes an eligible person after the Group's Effective Date, that date becomes the eligible person's effective date under this Program.

#### **Eligible Person**

The Employee is eligible to be covered under this Program if the Employee is determined by the Group as eligible to apply for coverage and sign the Application.

Eligibility shall not be affected by the Employee's physical condition and determination of eligibility for the coverage by the employer shall be final and binding.

#### **Eligible Dependent**

The Employee's family is eligible for coverage (Dependent coverage) under this Program when the Employee is eligible for Employee coverage. An eligible Dependent is defined as the Employee's spouse under a legally valid existing marriage, the Employee's child(ren), including any stepchild, legally adopted child, a child placed for adoption or any child whose coverage is the Employee's responsibility under the terms of a qualified release or court order. To determine the limiting age when coverage ends for covered children refer to the Keystone Member Benefit Booklet.

In addition, a full-time student will be considered eligible for coverage when they are on a Medically Necessary leave of absence from an Accredited Educational Institution. The Dependent child will be eligible for coverage until the earlier of one year from the first day of the leave of absence or the date on which the coverage otherwise would terminate. The limiting age referenced above will be applicable regardless of the status of the Medically Necessary leave of absence.

A full-time student who is eligible for coverage under this Program who is:

- A member of the Pennsylvania National Guard or any reserve component of the U.S. armed forces and who is called or ordered to active duty, other than active duty for training for a period of 30 or more consecutive days; or
- A member of the Pennsylvania National Guard who is ordered to active state duty, including duty under Pa. C.S. Ch. 76 (relates to Emergency Management Assistance Compact), for a period of 30 or more consecutive days.

Eligibility for these Dependents will be extended for a period equal to the duration of the Dependent's service on duty or active state duty or until the individual is no longer a full-time student regardless of the age of the Dependent when the educational program at the Accredited Educational Institution was interrupted due to military duty.

As proof of eligibility, the Employee must submit a form to the Claims Administrator approved by the Department of Military & Veterans Affairs (DMVA):

- Notifying the Claims Administrator that the Dependent has been placed on active duty;
- Notifying the Claims Administrator that the Dependent is no longer on active duty; or

- Showing that the Dependent has re-enrolled as a full-time student in an Accredited Educational Institution for the first term or semester starting 60 or more days after his release from active duty.

A Domestic Partner is also eligible for enrollment. As long as the Domestic Partnership exists, the child or children of a Domestic Partner shall be considered for eligibility under the Program as if they were the Member's own child or children. If the Member enrolls their Domestic Partner, the Member has an affirmative obligation to notify the Claims Administrator immediately if the Domestic Partnership terminates. Upon termination of the Domestic Partner relationship, coverage of the former Domestic Partner and the children of the former Domestic Partner shall terminate at the end of the current monthly term. The former Domestic Partner, and any of their previously covered children, shall be entitled, by applying within 60 days of such termination, to direct pay coverage of the type for which the former Domestic Partner and children are then qualified, at the rate then in effect. This direct pay coverage may be different from the coverage provided under this Benefit Booklet.

Eligibility will be continued past the limiting age for unmarried children, regardless of age, who are incapable of self-support because of mental or physical incapacitation and who are dependent on the Employee for over half of their support. The Claims Administrator may require proof of eligibility under the prior Claims Administrator's plan and also from time to time under this Program.

The newborn child(ren) of the Employee or the Employee's Dependent shall be entitled to the benefits provided by this Program from the date of birth for a period of 31 days. Coverage of newborn children within such 31 days shall include care which is necessary for the treatment of medically diagnosed congenital defects, birth abnormalities, prematurity and routine nursery care. To be eligible for Dependent coverage beyond the 31 day period, the Employee must enroll the newborn child within such 31 days. To continue coverage beyond 31 days for a newborn child, who does not otherwise qualify for coverage as a Dependent, the Employee must apply within 31 days after the birth of the newborn and the appropriate rate must be paid when billed.

A newly acquired Dependent shall be eligible for coverage under this Program on the date the Dependent is acquired provided that the Employee applies to the Claims Administrator for addition of the Dependent within 31 days after the Dependent is acquired and the Employee makes timely payment of the appropriate rate. If Application is made later than 31 days after the Dependent is acquired, coverage shall become effective on the first billing date following 30 days after the Employee's Application is accepted by the Claims Administrator.

A Dependent child of a custodial parent covered under this Program may be enrolled under the terms of a qualified medical release or court order, as required by law.

No Dependent may be eligible for coverage as a Dependent of more than one Member of the Enrolled Group. No individual may be eligible for coverage hereunder as a Member and as a Dependent of a Member at the same time.

### **Benefits to Which the Member Is Entitled**

The liability of the Claims Administrator is limited to the benefits specified in this Benefit Booklet. The Claims Administrator's determination of the benefit provisions applicable for the services rendered to the Member shall be conclusive.

### **Termination of Coverage at Termination Of Employment Or Membership In The Group**

When a Member ceases to be an eligible Employee or eligible Dependent, or the required contribution is not paid, the Member's coverage will terminate at the end of the last month for which payment was made. However, if benefits under this Program are provided by and/or approved by the Claims Administrator before the Claims Administrator receives notice of the Member's termination under this Program, the cost of such benefits will be the sole responsibility of the Member. In that circumstance, the Health Benefit Plan will consider the effective date of termination of a Member under this Program to be not more than 30 days before the first day of the month in which the Group notified the Claims Administrator of such termination.

### **Consumer Rights**

Each Member has the right to access, review and copy their own health and membership records and request amendments to their records. This includes information pertaining to claim payments, payment methodology, reduction or denial, medical information secured from other agents, plans or providers.

For more information about accessing, reviewing or copying records, call Member Services at the toll-free number referenced on the Identification Card.

### **Member/Provider Relationship**

- The choice of a Provider is solely the Member's choice.
- The Claims Administrator does not furnish Covered Services but only makes payment for Covered Services received by persons covered under this Program. The Claims Administrator is not liable for any act or omission of any Provider. The Claims Administrator has no responsibility for a Provider's failure or refusal to render Covered Services to a Member.

## **COVERAGE CONTINUATION**

### **Termination of the Member's Coverage and Conversion Privilege Under This Program**

- Termination of this Program - Termination of the Group coverage (this Program) automatically terminates all coverage for the Member (an Enrolled Employee) and the Member's eligible Dependents. The privilege of conversion to a conversion contract shall be available to any Member who has been continuously covered under the Group Program Document for at least three months (or covered for similar benefits under any group plan that this Program replaced).

It is the responsibility of the Group or the Group's Applicant Agent to notify the Member and the Member's eligible Dependents of the termination of coverage. However, coverage will be terminated regardless of whether the notice is given.

Rescission: If it is proven that the Member or the Member's eligible Dependent obtained or attempted to obtain benefits or payment for benefits, through fraud or intentional misrepresentation of material fact, the Claims Administrator, may, upon notice to the Member, terminate the coverage. The Member will receive written notice at least 30 days prior to termination but will have the right to utilize the **Complaint and Appeal Process** to appeal cancellation.

The privilege of conversion is available for the Member and the Member's eligible Dependents except in the following circumstances:

- The Group terminates this Program in favor of group coverage by another organization; or

- The Group terminates the Member in anticipation of terminating this Program in favor of group coverage by another organization.
- **Notice of Conversion** - Written notice of termination and the privilege of conversion to a conversion contract shall be given within 60 days after the date of termination of this Program. Once the Member receives notice and the Member elects a conversion plan, payment for coverage under the conversion contract must be made within 31 days. Evidence of insurability is not required. Upon receipt of this payment, the conversion contract will be effective on the date of the Member's termination under this Program.

Conversion coverage shall not be available if the Member is eligible for another health care program which is available in the Group where the Member is employed or with which the Member is affiliated to the extent that the conversion coverage would result in over-insurance.

If the Member's coverage or the coverage of the Member's eligible dependent terminates because of the Member's death, the Member's change in employment status, divorce of dependent spouse, or change in a dependent's eligibility status, the terminated Member will be eligible to apply within 31 days of termination (or termination of the continuation privileges under COBRA) to conversion coverage, of the type for which that Member is then qualified at the rate then in effect. This conversion coverage may be different from the coverage provided under this Program. Evidence of insurability is not required.

### **Continuation Of Coverage At Termination Of Employment Or Membership Due To Total Disability**

The Member's protection under this Program may be extended after the date the Member ceases to be a Member under this Program because of termination of employment or membership in the Group. It will be extended if, on that date, the Member is Totally Disabled from an illness or injury. The extension is only for that illness or injury and any related illness or injury. It will be for the time the Member remains Totally Disabled from any such illness or injury, but not beyond 12 months if the Member ceases to be a Member because the Member's coverage under this Program ends.

Coverage under this Program will apply during an extension as if the Member was still a Member. In addition, coverage will apply only to the extent that other coverage for the Covered Services is not provided for the Member through the Claims Administrator by the Group. Continuation of coverage is subject to payment of the applicable premium.

### **Continuation Of Incapacitated Child**

If an unmarried child is incapable of self-support because of mental or physical incapacity and is dependent on the Member (an enrolled Employee) for over half of the child's support, the Member may apply to the Claims Administrator to continue coverage of such child under this Program upon such terms and conditions as the Claims Administrator may determine. Coverage of such Dependent child shall terminate upon the child's marriage. Continuation of benefits under this provision will only apply if the child was eligible as a Dependent and mental or physical incapacity commenced prior to age 26.

The child must be unmarried, incapable of self-support and the disability must have commenced prior to attaining 26 years of age. The disability must be certified by the attending Physician; furthermore, the disability is subject to annual medical review. In a case where a handicapped child is over 26 years of age and joining the Claims Administrator for the first time, the handicapped child must have been covered under the prior health benefit plan and submit proof from the prior health benefit plan that the child was covered as a handicapped person.

## **When The Employee Terminates Employment - Continuation Of Coverage Provisions Consolidated Omnibus Budget Reconciliation Act Of 1985, As Amended (COBRA)**

The Employee should contact their Employer for more information about COBRA and the events that may allow the Employee or the Employee's eligible Dependents to temporarily extend health care coverage.

## **INFORMATION ABOUT PROVIDER REIMBURSEMENT**

The Member can get the maximum benefits from their Comprehensive Major Medical Health Benefits Program by using Participating Providers. The benefits of using these Participating Providers include:

- Lower coinsurance payments. When the Member uses a Participating Provider, the Coinsurance the Member pays will be a percentage of the contracted rate. This rate is lower than what the Provider normally charges.

The Member doesn't have to shop around for the lowest Provider costs; the Claims Administrator has done it for the Member. This means less money out of their pocket.

- No Balance Billing. Participating Providers agree to accept the amount the Claims Administrator pays, plus the Member's Coinsurance. If the Member goes to a Non-Participating Provider, unless a claim is successfully negotiated through the Price Protection Program, the Claims Administrator will pay the applicable percentage as described in the "Covered Expense" definition in the **Important Definitions** section. The Member pays the balance of this amount; plus, if the Provider charges rates higher than those normally charged in the geographic area, the Member will pay the extra amount.
- No Claim Forms. When using a Participating Provider, the Member never has to fill out a claim form.
- Precertification. To obtain a list of services that require Precertification please follow the instructions found in the **General Information** section of this Benefit Booklet. If the Member is ever unsure over whether to Precertify, call the Claims Administrator. Just use the toll-free number shown on the Member's Identification Card.

## **Self-Referred Benefits**

The benefits described in this Benefit Booklet are the benefits provided when the Member chooses to receive Covered Services without obtaining a referral from the Member's Primary Care Physician (called "Self-Referred Care"). When the Member chooses Self Referred Care, the level of benefits are, in most cases, subject to an annual Deductible, Coinsurance payments and Lifetime and Benefit Maximums, so the Member will be responsible for a greater share of out-of-pocket expenses. The Member also may be required to file a claim form.

Some of the services the Member's receives must be Precertified before the Member receives them, to determine whether they are Medically Necessary. Failure to Precertify Self-Referred Care services, when required, may result in a reduction of benefits. The Member will be financially liable for Penalties assessed for failure to Precertify Self-Referred services.

## Payment Of Benefits

Payment for Covered Services and supplies, when Medically Necessary, may vary depending on whether the Covered Service or supply was provided by a Participating or Non-Participating Provider.

- Participating Providers

Participating Providers have contractual arrangements for the provision of services to Members. Benefits will be provided as specified in the **Schedule of Covered Services** for Covered Services or supplies rendered to Members by a Participating Provider. The Claims Administrator will compensate a Participating Provider in accordance with the rate of reimbursement determined by contract. The Member's out-of-pocket Coinsurance costs will be less when the Member uses these Providers, because the Member's Coinsurance is calculated on lower contracted fees. The Claims Administrator may reimburse Providers directly for the services covered under this Program. Participating Providers will, in most instances, submit claim forms for reimbursement on the member's behalf.

- Non-Participating Providers

Non-Participating Providers do not have contractual arrangements for the provision of services to Members. When Covered Services and supplies are rendered by these Providers, the Member's Coinsurance costs may be higher, because for claims not successfully negotiated through the Price Protection Program, the Member's Coinsurance is calculated on the lesser of the allowable payment by Medicare, the Claims Administrator's proprietary fee schedule or the Provider's charges. (See the definition of "Covered Expense" in the **Important Definitions** section of this Benefit Booklet). For claims not successfully negotiated through the Price Protection Program, the Claims Administrator will pay benefits to the Member directly, and the Member will be responsible for paying the Provider.

- Emergency Care by Non-Participating Providers  
 If the Claims Administrator determines that Covered Services provided by a Non-Participating Provider were for Emergency Care, the Member will be subject to the Participating cost-sharing levels. Penalties that ordinarily would be applicable to Non-Participating Covered Services will not be applied. For Emergency Care, not successfully negotiated through the Price Protection Program, the Claims Administrator will reimburse the Member for Covered Services at the Non-Participating Provider reimbursement rate. However, if Emergency Care is provided by certain Out-of-Network Providers (For example, ambulance services), in accordance with applicable law, the Claims Administrator will reimburse the Out-of-Network Provider at an In-Network rate directly. In this instance the specified Out-of-Network Provider will not bill the Member for amounts in excess of the Claims Administrator's payment for the Emergency Care. For payment of Covered Services provided by a Non-Participating Provider, please refer to the definition of "Covered Expense" in the **Important Definitions** section of this Benefit Booklet. Inpatient admissions for Emergency Care must be certified within two business days of admission, or as soon as reasonably possible, as determined by the Claims Administrator. Payment for Emergency Services provided by Non-Participating Providers will be the negotiated amount through the Price Protection Program, or the greater of:
  - The median of the amounts paid to Participating Providers for Emergency Services;
  - The amount paid to Non-Participating Professional Providers; or
  - The amount paid by Medicare.

Unless a claim is successfully negotiated through the Price Protection Program, a Non-Participating Provider who provided Emergency Care can bill the Member directly for their services, for either the Provider's charges or amounts in excess of the Claims Administrator's payment for the Emergency Care (That is, balance billing). In such situations, the Member will need to contact the Claims Administrator at the Customer Service telephone number listed on the back of the Member's I.D. card. Upon such notification, the Health Benefit Plan will resolve the balance-billing.

- Non-Participating Hospital-Based Provider Reimbursement  
 When the Member receives Covered Services from a Non-Participating Hospital-Based Provider while the Member is an Inpatient at a Participating Hospital or other Participating Facility Provider and are being treated by a Participating Professional Provider, the Member will receive the Participating cost-sharing level of benefits for the Covered Services provided by the Non-Participating Hospital-Based Provider. For such Covered Services, not successfully negotiated through the Price Protection Program, payment will be made to the Member, who will be responsible for reimbursing the Non-Participating Hospital-Based Provider. For payment of Covered Services provided by a Non-Participating Professional Provider, please refer to the definition of "Covered Expense" in the **Important Definitions** section of this Benefit Booklet.

Unless a claim is successfully negotiated through the Price Protection Program, a Non-Participating Hospital-Based Provider can bill the Member directly for their services, for either the Provider's charges or amounts in excess of the Claims Administrator's payment to the Non-Participating Hospital-Based Providers (That is, balance billing). In such situations, the Member will need to contact the Claims Administrator at the Customer Service telephone number listed on the back of the Member's I.D. card. Upon such notification, the Claims Administrator will resolve the balance billing.

Note that when the Member elects to see a Non-Participating Hospital-Based Provider for follow-up care or any other service where the Member has the ability to select a Participating Provider, the Covered Services will be covered at a Non-Participating benefit level. Except for Emergency Care, if a Non-Participating Provider admits the Member to a Hospital or other Facility Provider, Covered Services provided by a Non-Participating Hospital-Based Provider will be reimbursed at the Non-Participating benefit level. For such Covered Services, not successfully negotiated through the Price Protection Program, payment will be made to the Member and the Member will be responsible for reimbursing the Non-Participating Hospital Based Provider. For payment of Covered Services provided by a Non-Participating Professional Provider, please refer to the definition of “Covered Expense” in the **Important Definitions** section of this Benefit Booklet.

- Inpatient Hospital Consultations by a Non-Participating Professional Provider

When the Member receives Covered Services for an Inpatient hospital consultation from a Non-Participating Professional Provider while the Member is an Inpatient at a Participating Facility Provider, and the Covered Services are referred by a Participating Professional Provider, the Member will receive the Participating cost-sharing level of benefits for the Inpatient hospital consultation.

For such Covered Services, not successfully negotiated through the Price Protection Program, payment will be made to the Member and the Member will be responsible for reimbursing the Non-Participating Professional Provider. For payment of Covered Services provided by a Non-Participating Professional Provider, please refer to the definition of “Covered Expense” in the **Important Definitions** section of this Benefit Booklet.

Unless a claim is successfully negotiated through the Price Protection Program, a Non-Participating Professional Provider can bill the Member directly for their services, for either the Provider’s charges or amounts in excess of the Claims Administrator’s payment to the Non-Participating Professional Providers (That is, balance billing). In such situations, the Member will need to contact the Claims Administrator at the Customer Service telephone number listed on the back of the Member’s I.D. card. Upon such notification, the Claims Administrator will resolve the balance billing.

Note that when the Member elects to see a Non-Participating Professional Provider for follow-up care or any other service when the Member has the ability to select a Participating Provider, the Covered Services will be covered at a Non-Participating benefit level. Except for Emergency Care, if a Non-Participating Professional Provider admits the Member to a Hospital or other Facility Provider, services provided by Non-Participating Professional Provider will be reimbursed at the Non-Participating benefit level. For such Covered Services, not successfully negotiated through the Price Protection Program, payment will be made to the Member and the Member will be responsible for reimbursing the Non-Participating Professional Provider. For payment of Covered Services provided by a Non-Participating Professional Provider, please refer to the definition of “Covered Expense” in the **Important Definitions** section of this Benefit Booklet.

- Non-Participating Pharmacies

With respect to Non-Participating Pharmacies, benefits will be provided to the Member at the Non-Participating Coinsurance level specified in the ***Schedule of Covered Services***.

Any applicable cost-sharing specified in the ***Schedule of Covered Services*** will be applied to the Covered Expense amount. A Non-Participating Pharmacy is entitled to collect from the Member any cost-sharing obligation and the remaining balance due.

- Assignment of Benefits to Providers

The right of a Member to receive benefit payments under this coverage is personal to the Member and is not assignable in whole or in part to any person, Hospital, or other entity nor may benefits of this Program be transferred, either before or after Covered Services are rendered. However, a Member can assign benefit payments to the custodial parent of a Dependent covered under this Program, as required by law.

## **BlueCard Program**

- Out-of-Area Services

### Overview

The Claims Administrator has a variety of relationships with other Blue Cross and/or Blue Shield Licensees. Generally, these relationships are called "Inter-Plan Arrangements." These Inter-Plan Arrangements work based on rules and procedures issued by the Blue Cross Blue Shield Association ("Association"). Whenever the Member accesses healthcare services outside of the geographic area the Claims Administrator serves, the claims for these services may be processed through one of these Inter-Plan Arrangements. The Inter-Plan Arrangements are described below.

When the Member receives care outside of the Claims Administrator's service area, the Member will receive it from one of two kinds of providers. Most providers ("participating providers") contract with the local Blue Cross and/or Blue Shield Licensee in that other geographic area ("Host Blue"). Some providers ("nonparticipating providers") don't contract with the Host Blue. Claims Administrator explains below how the Claims Administrator pays both kinds of providers.

### Inter-Plan Arrangements Eligibility - Claim Types

All claim types are eligible to be processed through Inter-Plan Arrangements, as described above, except for all Dental Care Benefits except when paid as medical claims/benefits, and those Prescription Drug Benefits or Vision Care Benefits that may be administered by a third party contracted by the Claims Administrator to provide the specific service or services.

- BlueCard® Program

Under the BlueCard® Program, when the Member receives Covered Services within the geographic area served by a Host Blue, the Claims Administrator will remain responsible for doing what we agreed to in the contract. However, the Host Blue is responsible for contracting with and generally handling all interactions with its participating providers.

When the Member receives Covered Services outside the Claims Administrator's service area and the claim is processed through the BlueCard Program, the amount the Member pays for Covered Services is calculated based on the lower of:

- The billed charges for Covered Services; or
- The negotiated price that the Host Blue makes available to the Claims Administrator.

Often this "negotiated price" will be a simple discount that reflects an actual price that the Host Blue pays to the Member's healthcare provider. Sometimes, it is an estimated price that takes into account special arrangements with the Member's healthcare provider or provider group that may include types of settlements, incentive payments and/or other credits or charges. Occasionally, it may be an average price, based on a discount that results in expected average savings for similar types of healthcare providers after taking into account the same types of transactions as with an estimated price.

Estimated pricing and average pricing also take into account adjustments to correct for over- or underestimation of past pricing of claims, as noted above. However, such adjustments will not affect the price the Claims Administrator has used for the Member's claim because they will not be applied after a claim has already been paid.

– Special Cases: Value-Based Programs

BlueCard® Program

If the Member receives Covered Services under a Value-Based Program inside a Host Blue's service area, the Member will not be responsible for paying any of the Provider Incentives, risk-sharing, and/or Care Coordinator Fees that are a part of such an arrangement, except when a Host Blue passes these fees to the Claims Administrator through average pricing or fee schedule adjustments.

Value-Based Programs: Negotiated (non-BlueCard Program) Arrangements

If the Claims Administrator has entered into a Negotiated Arrangement with a Host Blue to provide Value-Based Programs to the Group on the Member's behalf, the Claims Administrator will follow the same procedures for Value-Based Programs administration and Care Coordinator Fees as noted above for the BlueCard Program.

– Nonparticipating Providers Outside the Claims Administrator's Service Area

➤ Member Liability Calculation

When Covered Services are provided outside of the Claims Administrator's service area by nonparticipating providers, the amount the Member pays for such services will normally be based on either the Host Blue's nonparticipating provider local payment or the pricing arrangements required by applicable state law. In these situations, the Member may be responsible for the difference between the amount that the nonparticipating provider bills and the payment the Claims Administrator will make for the Covered Services as set forth in this paragraph. Federal or state law, as applicable, will govern payments for out-of-network emergency services.

➤ Exceptions

In certain situations, the Claims Administrator may use other payment methods, such as billed charges for Covered Services, the payment we would make if the healthcare services had been obtained within our service area, or a special negotiated payment to determine the amount the Claims Administrator will pay for services provided by nonparticipating providers. In these situations, the Member may be liable for the difference between the amount that the nonparticipating provider bills and the payment the Claims Administrator will make for the Covered Services as set forth in this paragraph.

– Blue Cross Blue Shield Global Core

If the Member is outside the United States, the Commonwealth of Puerto Rico, and the U.S. Virgin Islands (hereinafter “BlueCard service area”), the Member may be able to take advantage of the Blue Cross Blue Shield Global Core when accessing Covered Services. The Blue Cross Blue Shield Global Core is unlike the BlueCard Program available in the BlueCard service area in certain ways. For instance, although the Blue Cross Blue Shield Global Core assists the Member with accessing a network of inpatient, outpatient and professional providers, the network is not served by a Host Blue. As such, when the Member receives care from providers outside the BlueCard service area, the Member will typically have to pay the providers and submit the claims themselves to obtain reimbursement for these services.

If the Member needs medical assistance services (including locating a doctor or hospital) outside the BlueCard service area, the Member should call the Blue Cross Blue Shield Global Core Service Center at 1.800.810.BLUE (2583) (TTY: 711) or call collect at 1.804.673.1177 (TTY: 711), 24 hours a day, seven days a week. An assistance coordinator, working with a medical professional, can arrange a physician appointment or hospitalization, if necessary.

➤ Inpatient Services

In most cases, if the Member contacts the service center for assistance, hospitals will not require the Member to pay for covered inpatient services, except for the Member's deductibles, coinsurance, etc. In such cases, the hospital will submit the Member's claims to the service center to begin claims processing. However, if the Member paid in full at the time of service, the Member must submit a claim to receive reimbursement for Covered Services. **The Member must contact the Claims Administrator to obtain precertification for non-emergency inpatient services.**

➤ Outpatient Services

Physicians, urgent care centers and other outpatient providers located outside the BlueCard service area will typically require the Member to pay in full at the time of service. The Member must submit a claim to obtain reimbursement for Covered Services.

## SERVICES AND SUPPLIES REQUIRING PRECERTIFICATION

### Precertification Review

When required, Precertification review evaluates the Medical Necessity, including the appropriateness of the setting, of proposed services for coverage under the Member's benefit plan. Examples of these services include planned or elective Inpatient Admissions and selected Outpatient procedures. Precertification review may be initiated by the Provider (for Participating Providers and BlueCard Providers (Inpatient Admissions only)) or the Member. Where Precertification review is required, the Claims Administrator's coverage of the proposed procedure is contingent upon the review being completed and receipt of the approval certification. Coverage penalties may be applied where Precertification review is required for a procedure but is not obtained.

While the majority of services requiring Precertification review are reviewed for Medical Necessity of the requested procedure setting (For example, Inpatient, Short Procedure Unit, or Outpatient setting), other elements of the Medical Necessity of the procedure may not always be evaluated and may be automatically approved based on the procedure or diagnosis for which the procedure is requested or an agreement with the performing provider. Precertification review is not required for Emergency services.

#### ▪ Inpatient Pre-Admission Review

In accordance with the criteria and procedures described above, Inpatient Admissions, other than an Emergency or maternity admission, must be Precertified in accordance with the standards of the Claims Administrator as to the Medical Necessity of the admission. The Precertification requirements for Emergency admissions are set forth in the "Emergency Admission Review" subsection of this **General Information** section. The Member is responsible to contact or have the admitting Physician or other Facility Provider contact the Claims Administrator prior to admission to the Hospital, Skilled Nursing Facility, or other Facility Provider. The Claims Administrator will notify the Member, admitting Physician and the Facility Provider of the determination. The Member is eligible for Inpatient benefits only if prior approval of such benefits has been certified in accordance with the provisions of this Benefit Booklet.

If such prior approval for a Medically Necessary Inpatient Admission has not been certified as required, there will be a Penalty for non-compliance and the amount, as shown below, will be deemed not to be Covered Services under this Program. Such Penalty, and any difference in what is covered by the Claims Administrator and the Member's obligation to the Provider, will be the sole responsibility of, and payable by, the Member.

If a Member elects to be admitted to the Facility Provider after review and notification that the reason for admission is not approved for an Inpatient level of care, Inpatient benefits will not be provided and the Member will be financially liable for non-covered Inpatient charges.

If pre-admission certification is denied, the Member, the Physician or the Facility Provider may Appeal the determination and submit information in support of the claim for Inpatient benefits. A final determination concerning eligibility for Inpatient benefits will be made and the Member, Physician, or Facility Provider will be so notified.

The Claims Administrator will hold the Member harmless and the Member will not be financially responsible for admissions to Participating Hospitals which fail to conform to the above pre-admission certification requirements unless:

- The Hospital provides prior written notice that the admission will not be paid by the Claims Administrator; and
- The Member acknowledges this fact in writing together with a request to be admitted which states that the Member will assume financial liability for such Hospital admission.

▪ Emergency Admission Review

Members are responsible for notifying the Claims Administrator of an Emergency admission within two business days of the admission, or as soon as reasonably possible, as determined by the Health Benefit Plan.

Failure to initiate Emergency admission review will result in a reduction in Covered Expense. Such Penalty, as shown below, will be the sole responsibility of, and payable by, the Member.

If the Member elects to remain hospitalized after the Claims Administrator and the attending Physician have determined that an Inpatient level of care is not Medically Necessary, the Member will be financially liable for non-covered Inpatient charges from the date of notification.

▪ Concurrent and Retrospective Review

Concurrent review may be performed while services are being performed. This may occur during an Inpatient stay and typically evaluates the expected and current length of stay to determine if continued hospitalization is Medically Necessary. When performed, the review assesses the level of care provided to the Member and coordinates discharge planning. Concurrent review continues until the patient is discharged. Not all Inpatient stays are reviewed concurrently. Concurrent Review is generally not performed where an Inpatient Facility is paid based on a per case or diagnosis-related basis, or where an agreement with the Facility does not require such review.

Retrospective/Post Service review:

Retrospective review occurs after services have been provided. This may be for a variety of reasons, including the Claims Administrator not being notified of a Member's admission until after discharge or where medical charts are unavailable at the time of concurrent review. Certain services are only reviewed on a retrospective/post-service basis.

In addition to these standard utilization reviews, the Claims Administrator also may determine coverage of certain procedures and other benefits available to Members through Prenotification as required by the Member's benefit plan, and discharge planning.

Pre-notification. Pre-notification is advance notification to the Claims Administrator of an Inpatient Admission or Outpatient service where no Medical Necessity review is required, such as maternity admissions/deliveries. Pre-notification is primarily used to identify Members for Concurrent review needs, to ascertain discharge planning needs proactively, and to identify Members who may benefit from Case Management programs.

Discharge Planning. Discharge Planning is performed during an Inpatient Admission and is used to identify and coordinate a Member's needs and benefits coverage following the Inpatient stay, such as covered home care, ambulance transport, acute rehabilitation, or Skilled Nursing Facility placement. Discharge Planning involves the Claims Administrator's authorization of covered post-Hospital services and identifying and referring Members to Disease Management or Case Management benefits.

Selective Medical Review. In addition to the foregoing requirements, the Claims Administrator reserves the right, under its utilization and quality management programs, to perform a medical review prior to, during or following the performance of certain Covered Services ("Selective Medical Review") that are otherwise not subject to review as described above. In addition, the Claims Administrator reserves the right to waive medical review for certain Covered Services for certain Providers, if the Claims Administrator determines that those Providers have an established record of meeting the utilization and/or quality management standards for these Covered Services. Coverage penalties are not applied to Members where required Selective Medical Review is not obtained by the Provider.

### **Other Precertification Requirements**

Precertification is required by the Claims Administrator in advance for certain services. **To obtain a list of services that require Precertification, please go to [www.ibxpress.com/preapproval](http://www.ibxpress.com/preapproval) or call the Customer Service telephone number that is listed on the Member's Identification Card.** When a Member plans to receive any of these listed procedures, the Claims Administrator will review the Medical Necessity for the procedure or treatment in accordance with the criteria and procedures described above and grant prior approval of benefits accordingly.

Surgical, diagnostic and other procedures, listed on the Precertification requirements list, that are performed during an Emergency, as determined by the Claims Administrator, do not require Precertification. However, the Claims Administrator should be notified within two business days of Emergency services for such procedures, or as soon as reasonably possible, as determined by the Claims Administrator.

The Member is responsible to have the Provider performing the service contact the Claims Administrator to initiate Precertification for Non-Participating Providers and BlueCard Providers (excluding Inpatient Admissions). The Claims Administrator will verify the results of the Precertification with the Member and the Provider.

If such prior approval is not obtained and the Member undergoes the surgical, diagnostic or other procedure or treatment that requires Precertification, then benefits will be provided for Medically Necessary treatment, but the Provider's charge less any applicable Coinsurance or Deductibles shall be subject to a Penalty, as reflected below. Such Penalty, and any difference in what is covered by the Claims Administrator and the Member's obligation to the Provider, will be the sole responsibility of, and payable by, the Member.

### **Precertification Penalty:**

There is a \$700 Penalty for failure to preauthorize Inpatient services or treatment, and a 20% reduction in benefits for failure to preauthorize Outpatient services or treatment.

**Remember: services that are not determined by the Claims Administrator to be Medically Necessary may not be paid.**

## **Disease Management and Decision Support Programs**

Disease Management and Decision Support programs help Members to be effective partners in their health care by providing information and support to Members with certain chronic conditions as well as those with everyday health concerns. Disease Management is a systematic, population-based approach that involves identifying Members with certain chronic diseases, intervening with specific information or support to follow Provider's treatment plan, and measuring clinical and other outcomes. Decision Support involves identifying Members who may be facing certain treatment option decisions and offering them information to assist in informed, collaborative decisions with their Physicians. Decision Support also includes the availability of general health information, personal health coaching, Provider information, or other programs to assist in health care decisions.

Disease Management interventions are designed to help Members manage their chronic condition in partnership with their Physician(s). Disease Management programs, when successful, can help such Members avoid long term complications, as well as relapses that would otherwise result in Hospital or Emergency room care. Disease Management programs also include outreach to Members to obtain needed preventive services, or other services recommended for chronic conditions. Information and support may occur in the form of telephonic health coaching, print, audio library or videotape, or Internet formats.

The Claims Administrator will utilize medical information such as claims data to operate the Disease Management or Decision Support program, (For example, to identify Members with chronic disease, to predict which Members would most likely benefit from these services, and to communicate results to the Member's treating Physician(s)). The Claims Administrator will decide what chronic conditions are included in the Disease Management or Decision Support program.

Participation by a Member in Disease Management or Decision Support programs is voluntary. A Member may continue in the Disease Management or Decision Support program until any of the following occurs:

- The Member notifies the Claims Administrator that they have declined participation;
- The Claims Administrator determines that the program, or aspects of the program, will not continue; or
- The Member's Employer decides not to offer the programs.

## UTILIZATION REVIEW PROCESS AND CRITERIA

### Utilization Review Process

A basic condition of IBC's, and its subsidiary QCC Insurance Company's ("Claims Administrator") benefit plan coverage is that in order for a health care service to be covered or payable, the services must be Medically Necessary. To assist the Claims Administrator in making coverage determinations for requested health care services, the Claims Administrator uses established IBC Medical Policies and medical guidelines based on clinically credible evidence to determine the Medical Necessity of the requested services. The appropriateness of the requested setting in which the services are to be performed is part of this assessment. The process of determining the Medical Necessity of requested health care services for coverage determinations based on the benefits available under a Member's benefit plan is called utilization review.

It is not practical to verify Medical Necessity on all procedures on all occasions; therefore, certain procedures may be determined by the Claims Administrator to be Medically Necessary and automatically approved based on the accepted Medical Necessity of the procedure itself, the diagnosis reported or an agreement with the performing Provider. An example of such automatically approved services is an established list of services received in an Emergency room which has been approved by the Claims Administrator based on the procedure meeting Emergency criteria and the severity of diagnosis reported (For example, rule out myocardial infarction, or major trauma). Other requested services, such as certain elective Inpatient or Outpatient procedures may be reviewed on a procedure specific or setting basis.

Utilization review generally includes several components which are based on when the review is performed. When the review is required before a service is performed it is called a Precertification review. Reviews occurring during a hospital stay are called a concurrent review, and those reviews occurring after services have been performed are called either retrospective or post-service reviews. The Claims Administrator follows applicable state and federally required standards for the timeframes in which such reviews are to be performed.

Generally, where a requested service is not automatically approved and must undergo Medical Necessity review, nurses perform the initial case review and evaluation for coverage approval using the Claims Administrator's Medical Policies, established guidelines and evidence-based clinical criteria and protocols; however only a Medical Director employed by the Claims Administrator may deny coverage for a procedure based on Medical Necessity. The evidence-based clinical protocols evaluate the Medical Necessity of specific procedures and the majority are computer-based. Information provided in support of the request is entered into the computer-based system and evaluated against the clinical protocols. Nurses apply applicable benefit plan policies and procedures, taking into consideration the individual Member's condition and applying sound professional judgment. When the clinical criteria are not met, the given service request is referred to a Medical Director for further review for approval or denial. Independent medical consultants may also be engaged to provide clinical review of specific cases or for specific conditions. Should a procedure be denied for coverage based on lack of Medical Necessity, a letter is sent to the requesting Provider and Member in accordance with applicable law.

The Health Benefit Plan's utilization review program encourages peer dialogue regarding coverage decisions based on Medical Necessity by providing Physicians with direct access to the Claims Administrator's Medical Directors to discuss coverage of a case. Medical Directors and nurses are salaried, and contracted external Physician and other professional consultants are compensated on a per case reviewed basis, regardless of the coverage determination. The Claims Administrator does not specifically reward or provide financial incentives to individuals performing utilization review services for issuing denials of coverage. There are no financial incentives for such individuals which would encourage utilization review decisions that result in underutilization.

### **Clinical Criteria, Guidelines and Resources**

The following guidelines, clinical criteria and other resources are used to help make Medical Necessity coverage decisions:

**Clinical Decision Support Criteria:** Clinical Decision Support Criteria is an externally validated and computer-based system used to assist the Claims Administrator in determining Medical Necessity. This evidence-based, Clinical Decision Support Criteria is nationally recognized and validated. Using a model based on evaluating intensity of service and severity of illness, these criteria assist our clinical staff evaluating the Medical Necessity of coverage based on a Member's specific clinical needs. Clinical Decision Support Criteria helps promote consistency in the Claims Administrator's plan determinations for similar medical issues and requests, and reduces practice variation among the Claims Administrator's clinical staff to minimize subjective decision-making.

Clinical Decision Support Criteria may be applied for Covered Services including but not limited to the following:

- Some elective surgeries-settings for Inpatient and Outpatient procedures (For example, hysterectomy and sinus Surgery).
- Inpatient hospitalizations
- Inpatient Rehabilitation
- Home Health
- Durable Medical Equipment
- Skilled Nursing Facility

**Centers for Medicare and Medicaid Services (CMS) Guidelines:** A set of guidelines adopted and published by CMS for coverage of services by Medicare for Medicare Members.

**IBC Medical Policies:** IBC maintains an internally developed set of policies that document the coverage and conditions for certain medical/surgical procedures and ancillary services.

Covered Services for which IBC's Medical Polices are applied include, but are not limited to:

- Ambulance;
- Infusion;
- Speech Therapy;
- Occupational Therapy;
- Durable Medical Equipment;
- Review of potential cosmetic procedures

**IBC (and QCC) Internally Developed Guidelines:** A set of guidelines developed specifically by IBC (and QCC), as needed, with input by clinical experts based on accepted practice guidelines within the specific fields and reflecting IBC Medical Policies for coverage.

## **Delegation of Utilization Review Activities And Criteria**

In certain instances, the Health Benefit Plan has delegated certain utilization review activities, including Precertification review, concurrent review, and Case Management, to integrated delivery systems and/or entities with an expertise in medical management of a certain membership population (such as, Neonates/premature infants) or type of benefit or service (such as mental health/psychiatric care and Alcohol and Drug Abuse or radiology). In such instances, a formal delegation and oversight process is established in accordance with applicable law and nationally-recognized accreditation standards. In such cases, the delegate's utilization review criteria are generally used, with the Claims Administrator's approval.

## **Utilization Review and Criteria for Mental Health/Psychiatric Care and Alcohol and Drug Abuse Services**

Utilization Review activities for mental health/psychiatric care and Alcohol and Drug Abuse services have been delegated by IBC (and QCC) to a behavioral health management company, which administers the mental health/psychiatric care and Alcohol and Drug Abuse benefits for the majority of the Claims Administrator's Members.

## **COORDINATION OF BENEFITS**

### **Coordination of Benefits**

This Program's Coordination of Benefits (COB) provision is designed to conserve funds associated with health care.

#### ▪ Definitions

In addition to the Definitions of this Program for purposes of this provision only:

"Plan" shall mean any group arrangement providing health care benefits or Covered Services through:

- Individual, group, (except hospital indemnity plans), blanket (except student accident) or franchise insurance coverage;
- The Plan, health maintenance organization and other prepayment coverage;
- Coverage under labor management trusted plans, union welfare plans, Employer organization plans, or Employee benefit organization plans; and
- Coverage under any tax supported or government program to the extent permitted by law.

#### ▪ Determination of Benefits

COB applies when an Employee has health care coverage under any other group health care plan (Plan) for services covered under this Program, or when the Employee has coverage under any tax-supported or governmental program unless such program's benefits are, to the extent permitted by law, excess to those of any private insurance coverage. When COB applies, payments may be coordinated between the Claims Administrator and the other Plan in order to avoid duplication of benefits.

Benefits under this Program will be provided in full when the Claims Administrator is primary, that is, when the Claims Administrator determines benefits first. If another Plan is primary, the Claims Administrator will provide benefits as described below.

When an Employee has group health care coverage under this Program and another Plan, the following will apply to determine which coverage is primary:

- If the other Plan does not include rules for coordinating benefits, such other Plan will be primary.
- If the other Plan includes rules for coordinating benefits:

- The Plan covering the patient other than as a Dependent shall be primary.
- The Plan covering the patient as a Dependent of the parent whose date of birth, excluding year of birth, occurs earlier in the calendar year shall be primary, unless the child's parents are separated or divorced and there is no joint custody agreement. If both parents have the same birthday, the Plan which covered the parent longer shall be primary.
- Except as provided in the following paragraph, if the child's parents are separated or divorced and there is no joint custody agreement, benefits for the child are determined as follows:
  - ❖ First, the Plan covering the child as a Dependent of the parent with custody;
  - ❖ Then, the Plan of the spouse of the parent with custody of the child;
  - ❖ Finally, the Plan of the parent not having custody of the child.
- When there is a court decree which establishes financial responsibility for the health care expenses of the Dependent child and the Plan covering the parent with such financial responsibility has actual knowledge of the court decree, benefits of that Plan are determined first.
- If the specific terms of the court decree state that the parents shall share joint custody, without stating that one of the parents is responsible for the health care expenses of the child, the Plans covering the child shall follow the order of benefit determination rules outlined above in the paragraph that begins "The Plan covering the patient as a Dependent".
- The Plan covering the patient as an Employee who is neither laid off nor retired (or as that Employee's Dependent) is primary to a Plan which covers that patient as a laid off or retired Employee (or as that Employee's Dependent). However, if the other Plan does not have the rule described immediately above and if, as a result, the Plans do not agree on the order of benefits, this rule does not apply.
- If none of the above rules apply, the Plan which covered the Employee longer shall be primary.

▪ Effect on Benefits

When the Claims Administrator's Plan is secondary, the benefits under this Program will be reduced so that the Claims Administrator will pay no more than the difference, if any, between the benefits provided under the other Plan for services covered under this Program and the total Covered Services provided to the Employee. Benefits payable under another Plan include benefits that would have been payable had the claim been duly made therefore. In no event will the Claims Administrator payment exceed the amount that would have been payable under this Program if the Health Benefit Plan were primary.

When the benefits are reduced under the primary Plan because an Employee does not comply with the Plan provision, or does not maximize benefits available under the primary Plan, the amount of such reduction will not be considered an allowable benefit. Examples of such provisions are Participating Provider arrangements and other cost-sharing features.

Certain facts are needed to apply COB. The Claims Administrator has the right to decide which facts are needed. The Claims Administrator may, without consent of or notice to any person, release to or obtain from any other organization or person any information, with respect to any person, which the Claims Administrator deems necessary for such purposes. Any person claiming benefits under this Program shall furnish to the Claims Administrator such information as may be necessary to implement this provision. The Claims Administrator, however, shall not be required to determine the existence of any other Plan or the amount of benefits payable under any such Plan, and the payment of benefits under this Program shall be affected by the benefits that would be payable under any and all other Plans only to the extent that the Claims Administrator is furnished with information relative to such other Plans.

▪ Right of Recovery

Whenever payments which should have been made under this Program in accordance with this provision have been made under any other Plan, the Claims Administrator shall have the right, exercisable alone and in its sole discretion, to pay over to any organization making such other payments any amounts it shall determine to be warranted in order to satisfy the intent of this provision. Amounts so paid shall be deemed to be benefits provided under this Program and, to the extent of such payments, the Claims Administrator shall be fully discharged from liability under this Program.

Whenever payments have been made by the Claims Administrator in a total amount, at any time, in excess of the maximum amount of payment necessary at that time to satisfy the intent of this provision, irrespective of to whom paid, the Claims Administrator shall have the right to recover such payments to the extent of such excess from among one or more of the following, as the Claims Administrator shall determine:

- The person the Claims Administrator has paid or for whom they have paid;
- Insurance companies; or
- Any other organizations.

The Member, on the Member's own behalf and on behalf of the Member's Dependents, shall, upon request, execute and deliver such instruments and papers as may be required and do whatever else is reasonably necessary to secure such rights to the Claims Administrator.

## **SUBROGATION AND REIMBURSEMENT RIGHTS**

By accepting benefits for Covered Services, the Member agrees that the Claims Administrator has the right to enforce subrogation and reimbursement rights. This section explains these rights and the responsibilities of each Member pertaining to subrogation and reimbursement. The term Member includes Eligible Dependents. The term Responsible Third Party refers to any person or entity, including any insurance company, health benefits plan or other third party, that has an obligation (whether by contract, common law or otherwise) to pay damages, pay compensation, provide benefits or make any type of payment to the Member for an injury or illness.

The Claims Administrator or the Plan Administrator, as applicable, retains full discretionary authority to interpret and apply these subrogation and reimbursement rights based on the facts presented.

### **Subrogation Rights**

Subrogation rights arise when the Claims Administrator pays benefits on behalf of a Member and the Member has a right to receive damages, compensation, benefits or payments of any kind (whether by a court judgment, settlement or otherwise) from a Responsible Third Party. The Claims Administrator is subrogated to the Member's right to recover from the Responsible Third Party. This means that the Claims Administrator "stands in your shoes" - and assumes the Member's right to pursue and receive the damages, compensation, benefits or payments from the Responsible Third Party to the full extent that the Claims Administrator has reimbursed the Member for medical expenses or paid medical expenses on the Member's behalf, plus the costs and fees that are incurred by the Claims Administrator to enforce these rights. The right to pursue a subrogation claim is not contingent upon whether or not the Member pursues the Responsible Third Party for any recovery.

### **Reimbursement Rights**

If a Member obtains any recovery - regardless of how it's described or structured - from a Responsible Third Party, the Member must fully reimburse the Claims Administrator for all medical expenses that were paid to the Member or on the Member's behalf, plus the costs and fees that are incurred by the Claims Administrator to enforce these rights. The Claims Administrator has a right to full reimbursement.

### **Lien**

By accepting benefits for Covered Services from the Claims Administrator, the Member agrees to a first priority equitable lien by agreement on any payment, reimbursement, settlement or judgment received by the Member, or anyone acting on the Member's behalf, from any Responsible Third Party. As a result, the Member must repay to the Claims Administrator the full amount of the medical expenses that were paid to the Member or on the Member's behalf out of the amounts recovered from the Responsible Third Party (plus the costs and fees that are incurred by the Claims Administrator to enforce these rights) first, before funds are allotted toward any other form of damages, whether or not there is an admission of fault or liability by the Responsible Third Party. The Claims Administrator has a lien on any amounts recovered by the Member from a Responsible Third Party, regardless of whether or not the amount is designated as payment for medical expenses. This lien will remain in effect until the Claims Administrator is reimbursed in full.

## **Constructive Trust**

If the Member (or anyone acting on the Member's behalf) receive damages, compensation, benefits or payments of any type from a Responsible Third Party (whether by a court judgment, settlement or otherwise), the Member agrees to maintain the funds in a separate, identifiable account and that the Claims Administrator has a lien on the monies. In addition the Member agrees to serve as the trustee over the monies for the benefit of Claims Administrator to the full extent that the Claims Administrator has reimbursed the Member for medical expenses or paid medical expenses on the member's behalf, plus the attorney's fees and the costs of collection incurred by the Claims Administrator.

- These subrogation and reimbursement rights apply regardless of whether money is received through a court decision, settlement, or any other type of resolution.
- These subrogation and reimbursement rights apply even if the recovery is designated or described as covering damages other than medical expenses (such as property damage or pain and suffering).
- These subrogation and reimbursement rights apply with respect to any recoveries made by the Member, including amounts recovered under an uninsured or underinsured motorist policy.
- The Claims Administrator is entitled to recover the full amount of the benefits paid to the Member or on the Member's behalf plus the costs and fees that are incurred by the Claims Administrator to enforce these rights without regard to whether the Member has been made whole or received full compensation for other damages (including property damage or pain and suffering). The recovery rights of the Claims Administrator will not be reduced by the "made whole" doctrine or "double recovery" doctrine.
- The Claims Administrator will not pay, offset any recovery, or in any way be responsible for attorneys' fees or costs associated with pursuing a claim against a Responsible Third Party unless the Claims Administrator agrees to do so in writing. The recovery rights of the Claims Administrator will not be reduced by the "common fund" doctrine.
- In addition to any Coordination of Benefits rules described in this Benefit Booklet, the benefits paid by the Claims Administrator will be secondary to any no-fault auto insurance benefits and to any worker's compensation benefits (no matter how any settlement or award is characterized) to the fullest extent permitted by law.
- These subrogation and reimbursement rights apply and will not be decreased, restricted, or eliminated in any way if the Member receives or has the right to recover no-fault insurance benefits. All rights under this section are enforceable against the heirs, estate, legal guardians or legal representatives of the Member.
- The Claims Administrator is entitled to recover the full amount of the medical benefits paid without regard to any claim of fault on the Member's part.

## **Obligations of Member**

- Immediately notify the Claims Administrator or its designee in writing if the Member asserts a claim against a Responsible Third Party, whether informally or through judicial or administrative proceedings.
- Immediately notify the Claims Administrator or its designee in writing whenever a Responsible Third Party contacts the Member or the Member's representative - or the Member or the Member's representative contact a Responsible Third Party - to discuss a potential settlement or resolution.
- Refuse any offer to settle, adjust or resolve a claim for damages, benefits or compensation that involves an injury, illness or medical expenses in any way, unless and until the Member receives written authorization from the Claims Administrator or its delegated representative.
- Fully cooperate with the Claims Administrator and its designated representative, as needed, to allow for the enforcement of these subrogation and reimbursement rights and promptly supply

information/documentation when requested and promptly execute any and all forms/documents that may be needed.

- Avoid taking any action that may prejudice or harm the Claims Administrator ability to enforce these subrogation and reimbursement rights to the fullest extent possible.
- Fully reimburse the Claims Administrator or its designated representative immediately upon receiving compensation of any kind (whether by court judgment, settlement or otherwise) from a Responsible Third Party.
- Serve as trustee for any and all monies paid to (or payable to) the Member or for the Member's benefit by any Responsible Third Party to the full extent the Claims Administrator paid benefits for an injury or illness.
- All of these Obligations apply to the heirs, estate, legal guardians or legal representatives of the Member.

### **IMPORTANT: Failure to Cooperate**

If the Member fails or refuses to sign forms or documents as requested or otherwise fail or refuse to cooperate or abide by any of the obligations described above, the Claims Administrator or Plan Administrator, as applicable, has full discretion and authority to reduce or withhold benefit payments to recover subrogation/reimbursement amounts that are owed and/or to terminate the Member's participation in the Program.

## **CLAIM PROCEDURES**

### **How To File A Claim**

When the Member needs to file a claim, the Member should fill out the claim form and return it with their itemized bills to the Claims Administrator no later than 90 days after completion of the Covered Services. The claim should include the date and information required by the Claims Administrator to determine benefits. An expense will be considered Incurred on the date the service or supply was rendered.

If it was not possible to file the claim within the 90-day period, the Member's benefits will not be reduced, but in no event will the Claims Administrator be required to accept the claim more than 12 months after the end of the Benefit Period in which the Covered Services are rendered except in the absence of legal capacity of the claimant.

### **Release Of Information**

Each Member agrees that any person or entity having information relating to an illness or injury for which benefits are claimed under this Program may furnish to the Claims Administrator, upon its request, any information (including copies of records relating to the illness or injury). In addition, the Claims Administrator may furnish similar information to other entities providing similar benefits at their request.

The Claims Administrator may furnish other plans or plan sponsored entities with membership and/or coverage information for the purpose of claims processing or facilitating patient care.

When the Claims Administrator needs to obtain consent for the release of personal health information, authorization of care and treatment, or to have access to information from a Member who is unable to provide it, the Claims Administrator will obtain consent from the parent, legal guardian, next of kin, or other individual with appropriate legal authority to make decisions on behalf of the Member.

**Limitation Of Actions**

No legal action may be taken to recover benefits prior to 60 days after notice of claim has been given as specified above, and no such action may be taken later than three years after the date Covered Services are rendered.

**Claim Forms**

The Claims Administrator will furnish to the Member or to the Group, for delivery to the Member, such claim forms as are required for filing proof of loss for Covered Services provided by Non-Participating Providers.

**Timely Filing**

The Claims Administrator will not be liable under this Program unless proper notice is furnished to the Claims Administrator that Covered Services have been rendered to a Member. Written notice must be given within 90 days after completion of the Covered Services. The notice must include the date and information required by the Claims Administrator to determine benefits. An expense will be considered Incurred on the date the service or supply was rendered.

Failure to give notice to the Claims Administrator within the time specified will not reduce any benefit if it is shown that the notice was given as soon as reasonably possible, but in no event will the Claims Administrator be required to accept notice more than two years after the end of the Benefit Period in which the Covered Services are rendered.

**Time of Payment of Claims**

Claim payments for benefits payable under this Program will be processed immediately upon receipt of due written proof of loss. Subject to due written proof of loss, all benefits for loss for which this Program provides periodic benefits will be paid not more than 30 days after receipt of proof of loss and any balance remaining unpaid upon the termination of liability will be paid immediately upon receipt of due written proof.

**Payment of Claims**

If any indemnity of this Program shall be payable to the estate of the Member, or to a Member or beneficiary who is a minor or otherwise not competent to give a valid release, the Claims Administrator may pay such indemnity, up to an amount not exceeding \$1,000, to any relative by blood or connection by marriage of the Member or beneficiary who is deemed by Claims Administrator to be equitably entitled thereto. Any payment made by the Claims Administrator in good faith pursuant to this provision shall fully discharge the Claims Administrator to the extent of such payment.

**Physical Examinations and Autopsy**

The Claims Administrator at its own expense shall have the right and opportunity to examine the Member when and so often as it may reasonably require during the pendency of claim under this Program; and the Claims Administrator shall also have the right and opportunity to make an autopsy in case of death, where it is not prohibited by law.

**Special Circumstances**

In the event that Special Circumstances result in a severe impact to the availability of providers and services, to the procedures required for obtaining benefits for Covered Services under this Program (For example, use of Participating Providers), or to the administration of this Program by the Claims Administrator, the Claims Administrator may on a selective basis, waive certain procedural requirements of this Program. Such waiver shall be specific as to the requirements that are waived and shall last for such period as required by the Special Circumstances as

defined below.

The Claims Administrator shall make a good faith effort to provide access to Covered Services in so far as practical and according to its best judgment. Neither the Claims Administrator nor the Participating Providers shall incur liability or obligation for delay or failure to provide or arrange for Covered Services if such failure or delay is caused by Special Circumstances.

Special Circumstances as recognized in the community, and by the Claims Administrator and appropriate regulatory authority, are extraordinary circumstances not within the control of the Claims Administrator, including but not limited to:

- Major disaster;
- Epidemic;
- Pandemic;
- The complete or partial destruction of facilities;
- Riot; or
- Civil insurrection.

## IMPORTANT NOTICES

### Regarding Experimental/Investigative Treatment:

The Claims Administrator does not cover treatment it determines to be Experimental/Investigative in nature because that treatment is not accepted by the general medical community for the condition being treated or not approved as required by federal or governmental agencies. However, the Claims Administrator acknowledges that situations exist when a Member and their Physician agree to utilize Experimental/Investigative treatment. If a Member receives Experimental/Investigative treatment, the Member shall be responsible for the cost of the treatment. A Member or their Physician should contact the Claims Administrator to determine whether a treatment is considered Experimental/Investigative. The term "Experimental/Investigative" is defined in the ***Important Definitions*** section.

### Regarding Treatment Which Is Not Medically Necessary:

The Claims Administrator only covers treatment which it determines Medically Necessary. A Participating Provider accepts the Claims Administrator's decision and contractually is not permitted to bill the Member for treatment which the Claims Administrator determines is not Medically Necessary unless the Participating Provider specifically advises the Member in writing, and the Member agrees in writing that such services are not covered by the Claims Administrator, and that the Member will be financially responsible for such services. A Non-Participating Provider, however, is not obligated to accept the Claims Administrator's determination and the Member may not be reimbursed for treatment which the Claims Administrator determines is not Medically Necessary. The Member is responsible for these charges when treatment is received by a Non-Participating Provider. The Member can avoid these charges simply by choosing a Participating Provider for the Member's care. The term "Medically Necessary" is defined in the ***Important Definitions*** section.

### Regarding Treatment for Cosmetic Purposes:

The Claims Administrator does not cover treatment which it determines is for cosmetic purposes because it is not necessitated as part of the Medically Necessary treatment of an illness, injury or congenital birth defect. However, the Claims Administrator acknowledges that situations exist when a Member and their Physician decide to pursue a course of treatment for cosmetic purposes. In such cases, the Member is responsible for the cost of the treatment. A Member or their Physician should contact the Claims Administrator to determine whether treatment is for cosmetic purposes. The exclusion for services and operations for cosmetic purposes is detailed in the ***Exclusions - What Is Not Covered*** section.

## Regarding Coverage for Emerging Technology:

While the Claims Administrator does not cover treatment it determines to be Experimental/Investigative, it routinely performs technology assessments in order to determine when new treatment modalities are safe and effective. A technology assessment is the review and evaluation of available clinical and scientific information from expert sources. These sources include but are not limited to articles published by governmental agencies, national peer review journals, national experts, clinical trials, and manufacturer's literature. The Claims Administrator uses the technology assessment process to assure that new drugs, procedures or devices ("emerging technology") are safe and effective before approving them as Covered Services. When new technology becomes available or at the request of a practitioner or Member, the Claims Administrator researches all scientific information available from these expert sources. Following this analysis, the Claims Administrator makes a decision about when a new drug, procedure or device has been proven to be safe and effective and uses this information to determine when an item becomes a Covered Service for the condition being treated or not approved as required by federal or governmental agencies. A Member or their Provider should contact the Claims Administrator to determine whether a proposed treatment is considered "emerging technology" and whether the Provider is considered an eligible Provider to perform the "emerging technology" Covered Service. The Claims Administrator maintains the discretion to limit eligible Providers for certain "emerging technology" Covered Services.

## Regarding Non-Discrimination Rights

The Member has the right to receive health care services without discrimination:

- Based on race, ethnicity, age, mental or physical disability, genetic information, color, religion, gender, national origin, source of payment, sexual orientation, or sex, including stereotypes and gender identity;
- For Medically Necessary health services made available on the same terms for all individuals, regardless of sex assigned at birth, gender identity, or recorded gender;
- Based on an individual's sex assigned at birth, gender identity, or recorded gender, if it is different from the one to which such health service is ordinarily available;
- Related to gender transition if such denial or limitation results in discriminating against a transgender individual.

## Discretionary Authority

The Claims Administrator or Plan Administrator, as applicable, retains discretionary authority to interpret the benefit plan and the facts presented to make benefit determinations. Benefits under this Program will be provided only if the Claims Administrator or Plan Administrator, as applicable, determines in its discretion that the Member is entitled to them.

**REMEMBER: Whenever a Provider suggests a new treatment option that may fall under the category of "Experimental/Investigative", "cosmetic", or "emerging technology", the Member, or their Provider, should contact the Claims Administrator for a coverage determination. That way the Member and the Provider will know in advance if the treatment will be covered by the Claims Administrator.**

**In the event the treatment is not covered by the Claims Administrator, the Member can make an informed decision about whether to pursue alternative treatment options or be financially responsible for the non-covered service.**

**For more information on when to contact the Claims Administrator for coverage determinations, please see the Precertification and Prenotification requirements in the *General Information* section.**
