

The background features several teal-colored medical icons on a light teal background. These include a syringe in the top left, a stethoscope in the top center, a heart with an ECG line in the middle left, a pill in the bottom left, and a first aid kit with a white cross in the bottom center.

Allied Health: Best Practices

Using Assessment Data for Improvements to Teaching and Course Design

- Use varied sources of data to “tell the story” of student learning
- Exceptionally responsive to assessment results

Health Care Studies Program:

- 3,000 or more students
- Each semester, up to 20 sections of AH 101-400 to 600 students taking the course
- Assessment measures-
 - Foundation knowledge and skills
 - Academic/Student Skills
 - Retention
 - Progression
 - Success in moving to the next step toward career choice

The slide features a light teal background with several medical-themed icons on the left side. These include a syringe, a stethoscope, a heart with an ECG line, a pill, and a first aid kit. The main title is centered at the top in a bold, black font.

AH 101 and HCSP 7-Point Assessment

1. AH 101 Completion/Success Data
2. Assessment of AH 101 CLOs-Data and Discussions
3. AH 101 At-Risk Student Survey
4. AH 101 Retention Data for Next Semester
5. Assessment of HCSP PLOs
6. HCSP Retention and Completion
7. HCSP and Certificate Graduation Rates

Improvements to Teaching and Course Design: AH 101

- Foundation knowledge and skills
 - Medical Math Practice Quizzes and Tutor Visits
- Academic/Student Skills
 - Introductory Unit
 - LASSI (Learning and Study Strategies Inventory) and Tutoring Workshops
 - 5-Minute Reflection: Keys to Success for Health Care Students
- Retention
 - Connection with Professionals and Program Students
 - Academic Advising Assignment
- Progression
 - Connection with College Supports
- Success in moving to the next step toward career choice
 - All of the above
