

SOUND RECORDING and MUSIC TECHNOLOGY PROGRAM

at Community College of Philadelphia

A Career in Making Music

With emphasis on the music industry and creative sound design for film and multimedia, this program provides the real-world experience that will enable you to pursue several different occupations, such as recording artist, touring musician, sound engineer, music producer, DJ or film composer. You will also learn about music and sound design for television, advertising, video games and mobile apps.

*Explore your artistry
by writing, mixing
and marketing music;
performing in College
ensembles; and
collaborating with
other students*

The Path to Possibilities™

Community
College
of Philadelphia
www.ccp.edu

YOU WILL HAVE HANDS-ON TRAINING WITH:

- industry standard Pro Tools production studio and computer lab with Pro Tools, Logic Pro, NI Komplete, Ableton Live, Reason, Izotope plugins and more
- internships for college credit in a variety of settings, including postproduction facilities, record labels, recording studios and radio stations

Through the Sound Recording and Music Technology program, you will be able to complete several tasks:

- operate professional equipment and software
- use a mixing board and employ various microphone techniques
- manage, engineer and record live concerts
- compose music and create sound design for film and multimedia
- market a musical product through publishing, print music, recordings and videos
- understand the theory of how music is created, recorded and performed
- understand record contracts, publishing agreements and music licensing

Many students work together on additional projects that are not classroom assignments. These collaborations allow you to explore your creativity, practice your skills and learn from other students. The College also offers you opportunities to perform in different musical groups, led by faculty members, giving you experience performing in front of an audience and helping you perfect your craft.

CAREER PATHS

In addition to entering into the music, film or broadcast industries, you may pursue a four-year degree in similar programs, such as music production. You may also transfer to business or law programs to pursue entertainment law.

Your coursework, hands-on experience and internship opportunity will prepare you for careers in various industries:

- record labels
- music publishers
- film
- artist management companies
- radio and TV stations
- gaming companies
