RE: Item for Committee consideration

I am presenting the following for consideration by the Academic Affairs Standing Sub-Committee on Academic Support.

Policy and Procedures Memorandum # 8 contains a reference to the CAP program, specifically to Level A. The program designation CAP and level A no longer exist. I am recommending that the asterisk in the title of section II and the references to A level be eliminated.

I have enclosed that portion of the policy as well as the CAP A-Level document for your reference.

Please let me know if the committee would like me to be present at the meeting when this is discussed.

Thank you.
